

Needs and Uses: The Corps of Engineers uses ENG Forms 3925, 3925B, and 3925P as the basic instruments to collect waterborne commerce statistics. This data constitutes the sole source for domestic vessel movements of freight and passengers on U.S. navigable waterways and harbors. The data is collected from vessel operating companies, and are essential in maintaining U.S. navigable waterways. The data is also critical to the enforcement of the Harbor Maintenance Tax authorized under Section 1402 of Public Law 99-662.

Affected Public: Business or other for profit.

Annual Burden Hours: 44,479.

Number of Respondents: 1,321.

Responses Per Respondent: 228,752.

Average Burden Per Response: 5 minutes.

Frequency: Monthly.

SUPPLEMENTARY INFORMATION: The information collected is the basic data from which the Corps of Engineers compiles and publishes waterborne commerce statistics. The data is used not only to report to Congress, but also to perform cost benefit studies for new projects, rehabilitation projects, and operations and maintenance of existing projects. The WCSC is the sole authorized collector of data on domestic waterborne commerce and provides same to maritime Administration (MARAD), Department of Energy, Tennessee Valley Authority, Interstate Commerce Commission, the Coast Guard, State taxing agencies, U.S. Customs Service, Department of Treasury, and the Internal Revenue Service.

Proposed Collection; Comment Request

AGENCY: Deputy Chief of Staff for Personnel (DAPE-ZXI-RM), U.S. Army, DoD.

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Department of the Army announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of

information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATE: Consideration will be given to all comments received by May 15, 2000.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to U.S. Army Corps of Engineers Waterborne Commerce Statistics Center, P.O. Box 61280, New Orleans, LA 70161 ATTN: CEWRC-NDC-C (J. Alexander Wieriman). Consideration will be given to all comments received within 60 days of the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address, or call Department of the Army Reports clearance officer at (703) 614-0454.

Title, Associated Form, and OMB

Number: Record of Arrivals and Departures of Vessels at Marine Terminals, ENG Form 3926, OMB Number 0710-0005.

Needs and Uses: The Corps of Engineers uses ENG Form 3926, as a quality control instrument by comparing the data collected on the Corps' Vessel Operation Report (OMB Control Number 0710-0006) with that collected on the ENG Form 3926. The information is voluntarily submitted by the respondents to assist the Waterborne Commerce Statistics Center (WCSC) in the identification of vessel operators who fail to report significant vessel moves and tonnage.

Affected Public: Business or other for profit.

Annual Burden Hours: 2,500.

Number of Respondents: 450.

Responses Per Respondent: 12.

Average Burden Per Response: 5 minutes.

Frequency: Voluntary.

SUPPLEMENTARY INFORMATION: The information is invaluable in documenting the movement of petroleum products out of Valdez, Alaska. Without the information furnished on the ENG Form 3926 at least 50,000,000 tons of petroleum products would go unreported each

year. This situation exists because there are many vessel operating companies moving crude petroleum from Valdez to points south.

Department of the Army, Corps of Engineers

Cancellation of the Notice of Intent To Prepare a Draft Supplement to the Environmental Impact Statement (D-SEIS) for the Kennedy Bechara Segment of the Rio Puerto Nuevo Flood Control Project in Guaynabo and San Juan, Puerto Rico

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Cancellation notice.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers hereby cancels its Notice of Intent to prepare a Draft Supplement to the Environmental Impact Statement for the Rio Puerto Nuevo Flood Control Project, Kennedy-Bechara segment, as published in the **Federal Register** (Vol. 64, No. 174), Thursday, September 9, 1999, page 48995. Additional information concerning the cancellation is contained in the Supplementary Information paragraph indicated below.

FOR FURTHER INFORMATION CONTACT: Questions can be forwarded to Mr. Elmar G. Kurzbach, Environmental Branch, Planning Division, Jacksonville District, Corps of Engineers, Post Office Box 4970, Jacksonville, Florida 32232-0019, Phone: (904)-232-2325.

SUPPLEMENTARY INFORMATION: The Notice is cancelled because, after scoping for the proposed Supplement was completed, no new issues were raised; no request was received for public meetings, and comments were received only from environmental and resource agencies. All substantive comments made reference primarily to adverse impacts on wetlands of the flood mitigation alternatives then under consideration, all of which would have used a wetland (mangrove) parcel for disposal of excavated material to a greater or lesser degree. Federal and Commonwealth of Puerto Rico resource agencies, including the project co-sponsor, Department of Natural and Environmental Resources, stated that using remnant wetlands for disposal of excavated material was unacceptable. Consequently, the preferred alternative

has been revised to allow excavated material to be deposited upon uplands. With the resolution of this issue, the remaining wetlands footprint of the preferred alternative is less than that of the base plan previously coordinated under the National Environmental Policy Act in 1984 and 1993.

An Environmental Assessment will be prepared and coordinated for the proposed action. This document is expected to be available in approximately one month.

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as

required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 14, 2000.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Danny Werfel, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, N.W., Room 10235, New Executive Office Building, Washington, D.C. 20503 or should be electronically mailed to the internet address DWERFEL@OMB.EOP.GOV.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.
