Title of Collection: National Science Foundation-Managed Honor Awards.

OMB Number: 3145-0035.

Type of Request: Extension of approval of an information collection.

Proposed Project: The National Science Foundation (NSF) administers several external awards, among them the President's National Medal of Science, the Alan T. Waterman Award, the National Science Board (NSB) Vannevar Bush Award, the NSB Science and Society Award, the Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM) program, and the Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) program.

In 2003, to comply with E-government requirements, the nomination processes were converted to electronic submission via electronic systems as described in the individual nomination process. Individuals can now prepare nominations and references for all but the PAESMEM and PAEMST awards. First-time users must register on the Fastlane website using the link found in

the upper right-hand corner above the "Log In" box before accessing all but the PAESMEM and PAEMST honorary award categories. For PAEMST nominations and applications are submitted on the PAEMST portal at www.paemst.org. For PAESMEM, nominations and applications are submitted on the PAESMEM portal at www.paesmem.net.

Use of the Information: The Foundation has the following honorary award programs:

- **President's National Medal of Science.** Statutory authority for the President's National Medal of Science is contained in 42 U.S.C. 1881 (Pub. L. 86-209), which established the award and stated that "(t)he President shall . . . award the Medal on the recommendations received from the National Academy of Sciences or on the basis of such other information and evidence as . . . appropriate."

Subsequently, Executive Order 10961 specified procedures for the Award by establishing a National Medal of Science Committee which would "receive recommendations made by any other nationally representative scientific or engineering organization." On the basis of these recommendations, the Committee was directed to select its candidates and to forward its recommendations to the President.

In 1962, to comply with these directives, the Committee initiated a solicitation form letter to invite these nominations. In 1979, the Committee initiated a nomination form as an attachment to the solicitation letter. A slightly modified version of the nomination form was used in 1980.

The Committee has established the following considerations for selection of candidates:

a. The impact of an individual's body of work on the current state of his or her field of science or engineering;

b. Whether the individual's achievements are of an unusually significant nature in relation to the potential effects on the development of thought in his or her field of science or engineering;

c. Whether the nominee has demonstrated unusually distinguished service in the general advancement of science and/or engineering for the Nation, especially when accompanied by substantial contributions to the content of science;

d. The recognition of the nominee by peers within his or her community, and whether s/he is recognized for substantial impact in fields in addition to his/her discipline;
