

suspension of liquidation instructions will remain in effect until further notice.

### International Trade Commission Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (ITC) of our determination. As our final determination is affirmative, the ITC will determine, within 45 days, whether imports of subject merchandise are causing material injury, or threaten material injury, to an industry in the United States. If the ITC determines that material injury or threat of injury does not exist, the proceedings will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping order directing Customs Service officials to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: June 14, 2001.

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), NOAA is responsible for management of the Nation's marine fisheries. In addition, NOAA must comply with the United States' obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*). A Certificate of Eligibility for Swordfish is required under 50 CFR part 635 to accompany all imported swordfish. This documentation certifies that the accompanying swordfish is not from the Atlantic Ocean, or is from the Atlantic Ocean but is larger than the minimum size, or is Atlantic swordfish pieces derived from a fish greater than the minimum size limit. The certificate must accompany the swordfish from the point of original export up to and including the point of first transaction in the United States. This collection is necessary to implement the Fishery Management Plan for Atlantic Tunas, Sharks, and Swordfish and is consistent with the objective of that plan to rebuild Atlantic swordfish and manage a sustainable fishery.

#### II. Method of Collection

A paper certificate is completed and must be maintained.
