The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Marine Recreational Information Program Longitudinal Survey of Recreational Fishing Participation.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for a new information collection).

Number of Respondents: 5,131.

Average Hours per Response: 10 minutes.

Burden Hours: 1,593.

Needs and Uses: This request is for a new information collection.

These data are required to carry out provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), as amended, regarding conservation and management of fishery resources.

This data collection will test the effectiveness of a longitudinal panel study for contacting anglers and determining how many individuals participate in recreational saltwater fishing. The goal of the study is to assess the feasibility of the data collection design for collecting recreational fishing data, as well as testing assumptions and measuring potential sources of error in ongoing recreational fishing surveys.

Affected Public: Individuals or households.

**Chlorinated Isocyanurates From the People's Republic of China:
Preliminary Results of Antidumping
Duty Administrative Review; 2011-
2012**

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on chlorinated isocyanurates (chlorinated isos) from the People's Republic of China (PRC). The period of review (POR) is June 1, 2011, through May 31, 2012. This administrative review covers six producers/exporters of the subject merchandise: (1) Arch Chemicals (China) Co. Ltd. (Arch China); (2) Hebei Jiheng Chemical Co., Ltd. and Hebei Jiheng Baikang Chemical Industry Co., Ltd. (collectively, Jiheng); (3) Heze Huayi Chemical Co. Ltd. (Heze); (4) Juancheng Kangtai Chemical Co., Ltd. and Juancheng Ouya Chemical Co., Ltd. (collectively, Kangtai); (5) Sinoacarbon International Trading Co., Ltd. (Sinoacarbon); and (6) Zhucheng Taisheng Chemical Co., Ltd. (Zhucheng). Jiheng and Kangtai are the two producers/exporters being individually examined as mandatory respondents. We preliminarily determine that Jiheng and Kangtai made sales in the United States at prices below normal value (NV). We preliminarily determine that Arch China, Sinoacarbon and Zhucheng have demonstrated that they are eligible for a separate rate. The Department is also preliminarily determining that Heze made no shipments during the POR.

DATES: *Effective Date:* July 10, 2013.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The products covered by the order are chlorinated isos, which are derivatives of cyanuric acid, described as chlorinated s-triazine triones.¹ Chlorinated isos are currently classifiable under subheadings 2933.69.6015, 2933.69.6021, 2933.69.6050, 3808.40.50, 3808.50.40 and 3808.94.5000 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS subheadings are provided for convenience and customs purposes only; the written product description of the scope of the order is dispositive.

Preliminary Determination of No Shipments

Heze timely filed a "no shipment" certification stating that it had no entries of subject merchandise during the POR.² The Department subsequently confirmed with U.S. Customs and Border Protection (CBP) the "no shipment" claim made by Heze. Based on the certifications by Heze and our analysis of CBP information, we preliminarily determine that Heze did not have any reviewable transactions during the POR. In addition, the Department finds that consistent with its recently announced refinement to its assessment practice in non-market economy (NME) cases, further discussed below, it is appropriate not to rescind the review in part in these circumstances but, rather, to complete the review with respect to Heze and issue appropriate instructions to CBP based on the final results of the review.³

Methodology

The Department has conducted this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). Export prices have been calculated in accordance with section 772 of the Act. Because the PRC is an NME country within the meaning of section 771(18) of the Act, NV has been calculated in accordance with section 773(c) of the Act. Specifically,
