Abstract: The Department of the Interior (DOI) developed the DI-4016, Request for Individual Access to Records Protected under the Privacy Act, and DI-4017, Consent for Disclosure of Records Protected under the Privacy Act, forms for individuals to submit requests for accessing, and consenting to the disclosure of, records protected under the Privacy Act of 1974, as amended, 5 U.S.C. 552a. The DI-4016, Request for Individual Access to Records Protected under the Privacy Act, form is used by individuals seeking access to their records and any information pertaining to them that are maintained in DOI's systems of records. The DI-4017, Consent for Disclosure of Records Protected under the Privacy Act, form provides written consent of the individual to whom the record pertains when disclosing records to another person or an agency. The Privacy Act provides that “the parent of any minor, or the legal guardian of any individual who has been declared to be incompetent due to physical or mental incapacity or age by a court of competent jurisdiction, may act on behalf of the individual.” Therefore, these forms may also be used by a parent or legal guardian.

These forms were based on the templates provided in the OMB Memorandum M-21-04, Modernizing Access to and Consent for Disclosure of Records Subject to the Privacy Act, issued on November 12, 2020, which implements the requirements of the Creating Advanced Streamlined Electronic Services for Constituents Act of 2019 (“CASES Act”). The CASES Act

was issued in an effort to modernize the Privacy Act request process by requiring agencies to accept access and consent forms from individuals properly identity-proofed and authenticated remotely through a digital service option in addition to an agency's existing process. The CASES Act also requires the forms to be posted on the agency website's privacy program page and the website updated to include instructions on how individuals may submit requests digitally.

Abstract: Regulations at 42 U.S.C. 4601, promulgated under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Relocation Act), Public Law 91–646, as amended, require Federal agencies acquiring real estate interests to provide relocation benefits to individuals and businesses displaced as a result of the acquisition. Forms DI–381, Claim For Relocation Payments—Residential, and DI–382, Claim For Relocation Payments—Nonresidential, along with the associated Schedules A, B, C, and D, permit the applicant to present allowable moving expenses and certify occupancy status, after having been displaced because of Federal acquisition of their real property.

The information required is obtained through application made by the displaced person or business to the funding agency for determination as to the specific amount of monies due under the law. The forms, through which application is made, require specific information since the Uniform Relocation Assistance and Real Property Acquisition Act allows for various amounts based upon each actual circumstance. Minor revisions were made to allow for proper documentation of eligible costs associated with incidental expenses incurred by the property owners in furtherance of the acquisition which are unrelated to replacement housing. Failure to make application to the agency would eliminate any basis for payment of claims.

Notice of Intended Repatriation: Los Angeles County Museum of Natural History, Los Angeles, CA

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Los Angeles County Museum of Natural History (LACMNH) intends to repatriate certain cultural items that meet the definition of unassociated funerary objects and that have a cultural affiliation with the Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the cultural items in this notice may occur on or after May 30, 2025.

ADDRESSES: Amy E. Gusick, Los Angeles County Museum of Natural History, 900

Exposition Boulevard, Los Angeles, CA 90007, telephone (213) 763–3370, email agusick@nhm.org.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the LACMNH, and additional information on the determinations in this notice, including the results of consultation, can be found in the summary or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

A total of four lots of cultural items have been requested for repatriation. The four lots of unassociated funerary objects are lithics, faunal bones, shells, and flora. The unassociated funerary objects were removed from the Vasquez Rocks (CA–LAN–361) site in northern Los Angeles County, CA. Owners of the land on which the site now rests, Dr. Ascher and family, spent many years digging at the site in the mid-1900s. In 1966, the location was bulldozed by vandals. Between 1967–1970, LACNHM curator Dr. Charles Rozaire, as part of the California State University, Northridge Archaeological School, held field schools at the site, where students and supervisors excavated the bulldozed site and recovered artifacts and bone originally identified as faunal (non-human) bone. As a result of the looting and bulldozing, the artifacts and bones recovered from the site were not in original context and were highly fragmented.

In consultation with representatives of the Yuhaaviatam of San Manuel Nation (also known as the San Manuel Band of Mission Indians) and non-federally recognized California Tribes including the Fernandeño Tataviam Band of Mission Indians, in 2021, LACMNH conducted a detailed bioarcheological assessment of the bone recovered from CA–LAN–361 resulting in the identification and separation of human remains from these cultural items.

Based on archaeological context and information learned from consultations, these unassociated funerary objects are Native American. Based on artifact assemblage typologies, obsidian hydration readings and one radiocarbon date, archaeological evidence demonstrates that Vasquez Rocks (LAN–361) was used as a cemetery between 2315 BCE–79 BCE (Caruso 1988, Garza 2012, King et al. 1974), the Middle Holocene Period. Archaeologists have asserted that Serrano and Tataviam peoples have continuously occupied the
