

required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before March 29, 2021. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0645.

Title: Sections 17.4, 17.48 and 17.49, Antenna Structure Registration Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 16,050 respondents; 69,716 responses.

Estimated Time per Response: .1-.25 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in Sections 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303.

Total Annual Burden: 9,889 hours.

Total Annual Cost: \$59,460.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

There is no need for confidentiality. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission is seeking Office of Management and Budget (OMB) approval for an extension of this information collection in order to obtain the full three-year approval. The Commission has adjusted its burden and cost estimates in order to update the collection burdens necessary to implement a uniform registration process as well as safe and effective lighting procedures for owners of antenna structures.

Section 17.4 includes third party disclosure requirements. Specifically, Section 17.4 requires the owner of any proposed or existing antenna structure that requires notice of proposed construction to the Federal Aviation Administration (FAA) to register the structure with the Commission. This includes those structures used as part of the stations licensed by the Commission for the transmission of radio energy, or to be used as part of a cable television head-end system. If a Federal Government antenna structure is to be used by a Commission licensee, the structure must be registered with the Commission. Section 17.4(f) provides that antenna structure owners shall immediately provide to all tenant licensees and permittees notification that the structure has been registered. This may be done by providing either a copy of Form 854 or a link to the FCC antenna structure registration website. This notification may be done electronically or via paper mail.

Section 17.4(g) requires antenna structure owners to display the Antenna Structure Registration Number in a conspicuous place that is readily visible near the base of the antenna. This rule specifically requires that the Antenna Structure Number be displayed so that it is conspicuously visible and legible from the publicly accessible area nearest the base of the antenna structure along the publicly accessible roadway or path. Where an antenna structure is surrounded by a perimeter fence, or where the point of access includes an

access gate, the Antenna Structure Registration Number should be posted on the perimeter fence or access gate. Where multiple antenna structures having separate Antenna Structure Registration Numbers are located within a single fenced area, the Antenna Structure Registration Numbers must be posted both on the perimeter fence or access gate and near the base of each antenna structure. If the base of the antenna structure has more than one point of access, the rule requires that the Antenna Structure Registration Number be posted so that it is visible at the publicly accessible area nearest each such point of access. The registration number is issued to identify antenna structure owners in order to enforce the Congressionally mandated provisions related to the owners.

Sections 17.48 and 17.49 contain reporting and recordkeeping requirements. Section 17.48(a) requires that antenna structure owners immediately report outages of top steady burning lights or flashing antenna structure lights to the FAA, if not corrected within 30 minutes. Upon receipt of the outage notification, the FAA will issue a Notice to Airmen (NOTAM), which notifies aircraft of the outage. Consistent with FAA requirements, if a lighting outage cannot be repaired within the FAA's original NOTAM period, Section 17.48(a) further requires the antenna structure owner to notify the FAA of that fact and provide any needed updates to its estimated return-to-service date. The rule also requires antenna structure owners to continue to provide these updates to the FAA every NOTAM period until its lights are repaired.

Section 17.49 requires antenna structure owners to maintain a record of observed or otherwise known extinguishments or improper functioning of structure lights for two years and provide the records to the Commission upon request.
