Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Survey of Income and Program Participation

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 20, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: Survey of Income and Program Participation.

OMB Control Number: 0607-1000.

Form Number(s): None.

Type of Request: Regular submission, Revision of a Currently Approved Collection.

Number of Respondents: 40,000.

Average Hours per Response: 50 minutes.

Burden Hours: 33,330.

Needs and Uses: The SIPP collects information about a variety of topics including demographics, household composition, education, nativity and citizenship, health insurance coverage, Medicaid, Medicare, employment and earnings, unemployment insurance, assets, child support, disability, housing subsidies, migration, Old-Age Survivors and Disability Insurance (OASDI), poverty, and participation in various government programs like Supplemental Nutrition Assistance Program (SNAP), Supplemental Security Income (SSI), and Temporary Assistance for Needy Families (TANF).

The SIPP sample is nationally representative, with an oversample of low-income areas, in order to increase the ability to measure participation in government programs.

The SIPP program provides critical information necessary to understand patterns and relationships in income and program participation. It will fulfill its objectives to keep respondent burden and costs low, maintain high data quality and timeliness, and use a refined and vetted instrument and processing system. The SIPP data collection instrument maintains the improved data collection experience for respondents and interviewers and focuses on improvements in data quality and better topic integration.

The SIPP instrument is currently written in Blaise and C#. It incorporates an Event History Calendar (EHC) design to help ensure that the SIPP will collect intra-year dynamics of income, program participation, and other activities with at least the same data quality as earlier panels. The EHC is intended to help respondents recall information in a more natural "autobiographical" manner by using life events as triggers to recall other economic events. For example, a residence change may often occur contemporaneously with a change in employment. The entire process of compiling the calendar focuses, by its nature, on consistency and sequential order of events, and attempts to correct for otherwise missing data.

Since the SIPP EHC collects information using this

"autobiographical" manner for the prior year, due to the coronavirus pandemic, select questions were modified to include answer options related to the pandemic as well as adding new questions pertaining to the pandemic. For instance, we adjusted the question regarding being away from work part-time to include being possibly furloughed due to coronavirus pandemic business closures. We also added new questions to collect information on whether the respondent received any stimulus payments.

Affected Public: Individual or households.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Sections 141, 182.
