

On December 13, 2001, respondent Sammi Steel Co., Ltd. ("Sammi") timely filed an allegation that the Department made a ministerial error in the final results. Petitioners did not submit any comments in reply to this ministerial error allegation.

The Department is revising the all others rate applied to Sammi in the final results in this administrative review of stainless steel sheet and strip in coils from the Republic of Korea. Because Sammi did not participate in the original investigation and because Sammi had no shipments during the period of review, its cash deposit rate is the all others rate assigned to this case.

Sammi's Allegation of a Ministerial Error by the Department

Sammi contends that the Department, in its *Final Results*, erroneously applied the all others rate determined in the original investigation to Sammi, a no shipper during the period of review. Sammi notes that the Department amended its final determination on August 28, 2001, revising the all others rate from 12.12 percent to 2.49 percent. See *Notice of Amendment of Final Determinations of Sales at Less Than Fair Value: Stainless Steel Plate in Coils From the Republic of Korea; and Stainless Steel Sheet and Strip in Coils From the Republic of Korea* ("Amended Final Determination"), 66 FR 45279 (August 28, 2001). Sammi contends that the Department should amend its *Final Results* to apply the all others rate of 2.49 percent determined in the *Amended Final Determination* to Sammi.

Sammi notes that the Department's regulations defines a ministerial error as an "error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial," citing 19 CFR 351.224(f). Therefore, Sammi requests that the Department correct this ministerial error by revising Sammi's cash deposit rate and the all others rate to 2.49 percent in this administrative review, in accordance with the *Amended Final Determination*.

Department's Position: We agree with Sammi. Our *Final Results* erroneously stated that the "all others rate" applicable to exporters or manufacturers who have not been covered in this or any previous review conducted by the Department is 12.12 percent rather than the 2.49 percent established in the *Amended Final Determination*. The correct all others rate applicable to Sammi is the all others rate established

in the *Amended Final Determination*. Since Sammi did not participate in the original investigation and because Sammi had no shipments in the current period of review, its cash deposit rate is the all others rate determined in the *Amended Final Determination*.

Therefore, we are amending the final results of the antidumping duty administrative review of stainless steel sheet and strip in coils from the Republic of Korea to reflect the correction of the above-cited ministerial error.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: January 9, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 01-022. *Applicant:* The Scripps Research Institute, 10550 North Torrey Pines Road, La Jolla, CA 92037. *Instrument:* Electron Microscope, Model Tecnai F20T. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used in the study of the following:

- (1) Cowpea Mosaic Virus isolated from infected plants.
- (2) NwV Mosaic Virus isolated from insect cells.
- (3) Muscle Proteins isolated from vertebrate striated and smooth muscle fibers.

(4) Microtubules and associated proteins isolated from bovine brain or from bacterial expression systems.

(5) CHIP28 Water Channels isolated from human erythrocytes.

(6) Aqua Porins isolated from plants.

(7) Acetylcholine Receptors isolated from the electric organ of Torpedo californica and T.marmorata.

(8) Gap Junctions isolated from rat hearts and liver as well as from tissue culture expression systems.

(9) Rotavirus and Reovirus isolated from infected tissue culture cells.

(10) Transcription Complexes from bacterial and yeast expression systems.

(11) A number of enzyme complexes: fatty acid synthase, glyceraldehyde-3-phosphate dehydrogenase, hemocyanin, GroEL, isolated from various tissues of animal and plant origin.

(12) Tobacco Mosaic Virus isolated from infected plants.

The goals of the investigations are in general to understand the structural basis for how the subcellular organelles function and to elucidate the role that they play in the life of the cell.

Application accepted by Commissioner of Customs: October 14, 2001.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.
