I. What Action Is EPA Taking Today?

The EPA is proposing to approve a revision to Indiana's SIP which revises exemption levels and compliance and recordkeeping requirements in its shipbuilding and ship repair VOC rules. This revision was requested by Indiana on August 8, 2001, to streamline some of the overlapping requirements between the national emission standards for hazardous air pollutants and its shipbuilding and ship repair VOC rules.

II. Where Can I Find More Information About This Proposal and Corresponding Direct Final Rule?

For additional information see the direct final rule published in the rules section of this **Federal Register**.

Need for Correction

The NPRM, as published, contained an erroneous number for the total of District 1's operating expenses and understated the total revenue required by each of the three Districts to cover operating expenses, pilots' target compensation, and return on investment. This was due to an error in the calculation used to compute the total dollar return on the investment base of one pilots' association. Because of this error, the percentage of pilotage-rate adjustment in rates for Areas 4, 5, 7, and 8 was understated by 1%; and because of this the proposed charges for pilotage services in those areas was understated, also by 1%.

Correction of Publication

Accordingly, we correct the NPRM, FR Doc. 03-1461, published January 23, 2003 (68 FR 3202), as follows (with
