- Passenger vessel operators;
- Manufacturers and designers of emergency alarm systems on passenger vessels; and
- Voluntary codes and standards groups which address emergency alarms on passenger vessels.

Approval and Promulgation of Air Quality Implementation Plans; Virginia; State Implementation Plan Revision Variance for International Paper, Franklin Paper Mill, VA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Virginia for the purpose of establishing a variance for the International Paper, Franklin Paper Mill facility located in Franklin, Virginia. The variance provides regulatory relief from compliance with state regulations governing new source review for the implementation of the International Paper, Franklin Paper Mill innovation project. In lieu of compliance with these regulatory requirements, the variance requires the facility to comply with site-wide emission caps. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.
