

limits. Consequently these sources will have recordkeeping and reporting requirements associated with the stack test. We have assumed that no additional sources are expected to become subject to the standard in the next three years. Therefore, there are 33 respondents for the purpose of determining the recordkeeping and reporting burden associated with this rule.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 61, subpart C, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 16 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Beryllium Facilities.

Estimated Number of Respondents: 33.

Frequency of Response: Monthly and on occasion.

Estimated Total Annual Hour Burden: 2,627.

Estimated Total Annual Cost: \$201,160, which is comprised of \$0 annualized Capital Startup costs and \$35,000 Operation and Maintenance (O&M) costs and \$166,160 annualized Labor Costs.

Change in Estimates: There is no significant change in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is very low, negative or non-existent.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR and there is no change in burden to industry.

Dated: November 8, 2007.

Sara Hisel-McCoy,

Director, Collection Strategies Division.

Notice of Extension of Public Comment Period for the External Review Draft of a "Framework for Determining a Mutagenic Mode of Action for Carcinogenicity: Using EPA's 2005 Cancer Guidelines and Supplemental Guidance for Assessing Susceptibility From Early-Life Exposure to Carcinogens"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of extension of public comment period.

SUMMARY: On September 27, 2007, the U.S. Environmental Protection Agency (EPA) released for public comment the External Review Draft of the "Framework for Determining a Mutagenic Mode of Action for Carcinogenicity: Using EPA's 2005 Cancer Guidelines and Supplemental Guidance for Assessing Susceptibility from Early-Life Exposure to Carcinogens" (or *Framework*). At that time, a 60-day public comment period was announced. This notice announces a 30-day extension of the public comment period; the public comment period will end 90 days from September 27, 2007, the date of the original **Federal Register** Notice (72 FR 54910). Visit <http://www.epa.gov/fedrgstr/EPA->

[GENERAL/2007/September/Day-27/g19119.pdf](http://www.epa.gov/fedrgstr/EPA-GENERAL/2007/September/Day-27/g19119.pdf)) for further information. Members of the public may obtain the draft interim guidance from <http://www.regulations.gov>; or <http://www.epa.gov/osa/mmoaframework>; or consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

ADDRESSES: The draft document is available electronically through the EPA Office of the Science Advisor's Web site at: <http://www.epa.gov/osa/mmoaframework>.

FOR FURTHER INFORMATION CONTACT: For more information, contact Resha Putzrath, Ph.D., Office of the Science Advisor, Mail Code 8105R, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-3229; fax number: (202) 564-2070, e-mail: putzrath.resha@epa.gov.

Dated: November 8, 2007.

George M. Gray,

EPA Science Advisor.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202-564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated April 6, 2007 (72 FR 17156).

Draft EISs

EIS No. 20070218, ERP No. D-FHW-K40263-CA, Interstate 405 (San Diego Freeway) Sepulveda Pass Widening Project, From Interstate 10 to US-101 in the City of Los Angeles, Los Angeles County, CA.

Summary: EPA expressed environmental concerns about water quality and air quality impacts. EPA recommends additional best management practices and construction mitigation measures. Rating EC2.

EIS No. 20070275, ERP No. D-FHW-K59007-CA, Eureka-Arcata Route 101
