## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA–R09–OAR–2015–0280; FRL–9933–20–Region 9]

#### Revisions to California State Implementation Plan; Bay Area Air Quality Management District; Stationary Sources Permits

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing a limited approval and limited disapproval of Regulation 2, Rules 1 and 2 for the Bay Area Air Quality Management District (BAAQMD or District) portion of the California State Implementation Plan (SIP) submitted on April 22, 2013. These revisions consist of significant updates to rules governing the issuance of permits for stationary sources, including review and permitting of major sources and major modifications under parts C and D of title I of the Clean Air Act (CAA). The intended effect of this proposed limited approval and limited disapproval action is to update the applicable SIP with current BAAQMD permitting rules and to set the stage for remediating certain deficiencies in these rules. If finalized as proposed, this limited disapproval action would trigger an obligation for EPA to promulgate a Federal Implementation Plan unless California submits and we approve SIP revisions that correct the deficiencies within two years of the final action, and for certain deficiencies the limited disapproval would also trigger sanctions under section 179 of the CAA unless California submits and we approve SIP revisions that correct the deficiencies within 18 months of final action.
