SUPPLEMENTARY INFORMATION:

I. Abstract

Title V of the Trade and Development Act of 2000 ("the Act") as amended by the Trade Act of 2002, the Miscellaneous Trade Act of 2004, and the Pension Protection Act of 2006 contains several provisions to assist the wool products industries. These include the establishment of tariff rate quotas (TRQ) for a limited quantity of worsted wool fabrics. The Act requires the President to fairly allocate the TRQ to persons who cut and sew men's and boys' worsted wool suits and suit like jackets and trousers in the United States, and who apply for an allocation based on the amount of suits they

produce in the prior year. The Act specifies factors to be addressed in considering such requests. The TRQ was originally effective for goods entered or withdrawn from warehouse for consumption, on or after January 1, 2001, and was to remain in force through 2003. On August 6, 2002, President Bush signed into law the Trade Act of 2002, which includes several amendments to Title V of the Act including the extension of the program through 2005. On December 3, 2004, the Act was further amended pursuant to the Miscellaneous Trade Act of 2004, Public Law 108-429, by increasing the TRQ for worsted wool fabric with average fiber diameters greater than 18.5 microns, HTS 9902.51.11, to an annual total level of 5.5 million square meters, and extending it through 2007, and increasing the TRQ for average fiber diameters of 18.5 microns or less, HTS 9902.51.15 (previously 9902.51.12), to an annual total level of 5 million square meters and extending it through 2006. On August 17, 2006, the Act was further amended pursuant to the Pension Protection Act of 2006, Public Law 109-280, which extended both TRQs, 9902.51.11 and 9902.51.15, through 2009. A TRQ allocation will be valid only in the year for which it is issued.

On December 1, 2000, the President issued Proclamation 7383 that, among other things, delegates authority to the Secretary of Commerce to allocate the TRQ and to issue regulations to implement these provisions. On January 22, 2001, the Department of Commerce published regulations establishing procedures for allocation of the tariff rate quotas (66 FR 6459, 15 CFR part 335). These interim regulations were adopted, without change, as a final rule published on October 24, 2005 (70 FR 61363). The Department must collect certain information in order to fairly allocate the TRQ to eligible persons.

II. Method of Collection

The information collection forms will be provided via the Internet and by mail to requesting firms.

III. Data

OMB Number: 0625-0240.

Form Number: ITA-4139, and ITA-4140P.

BILLING CODE 3510-22-S

DEPARTMENT OF DEFENSE

Office of the Secretary

Notice of Availability of the Draft Programmatic Environmental Impact Statement for DTRA Activities on White Sands Missile Range, New Mexico

AGENCY: Department of Defense, Office
of the Under Secretary of Defense for
Acquisition, Technology, and Logistics,
Defense Threat Reduction Agency.

ACTION: Notice of availability of final
programmatic environmental impact
statement (PEIS) for increased testing
activities at White Sands Missile Range
(WSMR), NM.

SUMMARY: Pursuant to the National
Environmental Policy Act of 1969, as
amended (NEPA) (42 U.S.C. 4321 *et
seq.*) and the Council on Environmental
Quality Regulations for Implementing
the Procedural Provisions of NEPA (40
CFR Parts 1500-1508), DTRA has
prepared and issued a final PEIS for the
proposed testing activities at WSMR.
The PEIS addresses the potential
environmental impacts associated with
implementing the proposed action,
alternative, and no action alternative
over a 10 year period. The purpose of
the proposed action is to provide
adequate test areas and facilities to
evaluate the lethality effectiveness of
weapon systems used against simulated
enemy ground targets producing,
storing, or controlling Weapons of Mass
Destruction (WMD). There is a need to
improve weapon systems designed to
defeat enemy military assets including
hardened and reinforced structures.
These enemy military assets can house
WMD and pose a significant threat to
international stability and peaceful
coexistence among nations. The military
structures and equipment of the United
States and its allies must also be refined
to better withstand attack by enemy
weapons systems to reduce collateral
damage. The PEIS presents descriptions
of the proposed action, an overview of
the affected environment at and near the
test sites, and the potential
environmental consequences associated
