SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS) and its components and offices have relied on preexisting Privacy Act systems of records notices for the collection and maintenance of records that concern any individual who serves on a DHS-wide and/or component specific advisory committee.

As part of its efforts to streamline and consolidate its records systems, DHS is establishing a new agency-wide system of records under the Privacy Act (5 U.S.C. 552a) for DHS advisory committees. This record system will allow all component parts of DHS to collect and preserve the required personally identifiable information needed for members who apply for or participate in DHS advisory committees. The system will consist of both electronic and paper records and will be used by DHS and its components and offices to maintain records of Federal government employees and other persons who participate in DHS-sponsored Federal advisory committees. The data will be collected by individual name, name of committee, and/or other unique personal identifier. The collection and maintenance of this information will assist DHS in maintaining a list of members of the various Federal advisory committees, internal committees, and interagency committees to provide DHS with information on committee functions,

meeting dates, agendas, and other purposes for managing committees.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of record notices, DHS proposes to consolidate two legacy record systems: FEMA/ADM-3-Advisory Committee Files (55 FR 37182 September 7, 1990) and DOT/CG 586 Chemical Transportation Industry Advisory Committee (65 FR 19475 April 11, 2000) into one system, titled Department of Homeland Security Advisory Committees. This system will allow DHS to collect and maintain information on advisory committee members and applicants. Categories of individuals, categories of records, and the routine uses of these legacy system of records notices have been consolidated and updated to better reflect the Department's advisory committee record systems. This consolidated system will be included in DHS's inventory of system records.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and legal permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the
