

requirements that are comparable to and no less stringent than the federal requirements. EPA has also determined that Arizona's program revision request meets all of the regulatory requirements for approval, as set forth in 40 CFR 142.12, including a side-by-side comparison of the Federal requirements demonstrating the corresponding Arizona authorities, additional materials to support special primacy requirements of 40 CFR 142.16, a review of the requirements contained in 40 CFR 142.10 necessary for States to attain and retain primary enforcement responsibility, and a statement by the Arizona Attorney General certifying that Arizona's laws and regulations to carry out the program revision were duly adopted and are enforceable. The Attorney General's statement also affirms that Arizona's audit privilege law does not impact Arizona's ability to implement or enforce the Arizona laws and regulations pertaining to the program revision. This finding relies upon the analysis contained in the letter from the Office of the Attorney General to the EPA Region 9 Water Division Director, dated January 28, 2019, regarding its environmental audit privilege law. Therefore, EPA approves this revision of Arizona's approved State primacy program. The Technical Support Document, which provides EPA's analysis of Arizona's program revision request, is available by submitting a request to the following email address: R9dw-program@epa.gov. Please note "Technical Support Document" in the subject line of the email.

Public Process. Any interested person may request a public hearing on this determination. A request for a public hearing must be received or postmarked before October 20, 2022 and addressed to the Regional Administrator of EPA Region 9, via the following email address: R9dw-program@epa.gov, or by contacting the EPA Region 9 contact person listed above in this notice by telephone if you do not have access to email. Please note "Arizona Program Revision Determination" in the subject line of the email. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. If a timely request for a public hearing is made, then EPA Region 9 may hold a public hearing. Any request for a public hearing shall include the following information: 1. The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; 2. A brief statement of the requesting person's interest in the Regional Administrator's determination

and of information that the requesting person intends to submit at such hearing; and 3. The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

If EPA Region 9 does not receive a timely request for a hearing or a request for a hearing was denied by the Regional Administrator for being frivolous or insubstantial, and the Regional Administrator does not elect to hold a hearing on their own motion, EPA's approval shall become final and effective on October 20, 2022, and no further public notice will be issued.
