

Organization/Lloyd's Registry (IMO/LR) number.

The primary reason for the revision of this information collection is to reflect that HMS International Trade Permits have been removed from this collection as they were discontinued in 2016, and replaced with the International Fishing Trade Permit (IFTP). The IFTP is covered under OMB Control No. 0648–0732. Thus, the burden and costs associated with renewal and issuance of an initial HMS ITP are no longer applicable to this collection of information.

II. Method of Collection

Methods of submittal include on line, email, and mail.

III. Data

OMB Control Number: 0648–0327.

Form Number(s): None.

Type of Review: Regular submission (request for revision and extension of a current information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 39,571.

Estimated Time per Response:

Renewal of Atlantic Tunas Dealer Permit application, 5 minutes; renewal applications for the following vessel permits—Atlantic Tunas, HMS Charter/Headboat, HMS Angling, and Swordfish General Commercial, 10 minutes; initial Atlantic Tunas Dealer Permit application, 15 minutes; initial applications for the following vessel permits—Atlantic Tunas, HMS Charter/Headboat, HMS Angling, and Swordfish General Commercial, 35 minutes; One-time application for the IMO/LP number, 30 minutes.

Estimated Total Annual Burden Hours: 11,063.

Estimated Total Annual Cost to Public: \$947,844.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or

included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 19, 2018.

SUPPLEMENTARY INFORMATION: The original notice published in the **Federal Register** on January 22, 2018 (83 FR 2963).

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data,

Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three step process including: (1) Data Workshop; (2) Assessment Process utilizing workshops and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Review Workshop agenda are as follows:

1. The Review Panel participants will review the stock assessment reports to determine if they are scientifically sound.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the council office (see ADDRESSES) at least 10 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.
