[Project No. 1922-052]

Ketchikan Public Utilities; Notice of Intent To Prepare an Environmental Assessment

On October 27, 2022, Ketchikan Public Utilities (KPU) filed an application for a new major license for the 7.1-megawatt Beaver Falls Hydroelectric Project (Beaver Falls Project; FERC No. 1922). The Beaver Falls Project is located on Beaver Falls Creek in Ketchikan Gateway Borough, Alaska. The project currently occupies 478.4 acres of United States lands administered by U.S. Forest Service.

In accordance with the Commission's regulations, on October 10, 2023, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major Federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare a draft and final Environmental Assessment (EA) on the application to relicense the Beaver Falls Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The Commission's Office of Public Participation (OPP) supports meaningful
