SUPPLEMENTARY INFORMATION:

I. Abstract

The Current Retail Sales and Inventory Survey provides estimates of monthly retail sales, end-of-month merchandise inventories, and quarterly e-commerce sales of retailers in the United States by selected kinds of business. Also, it provides monthly sales of food service establishments. The Bureau of Economic Analysis (BEA) uses this information to prepare the

National Income and Products Accounts and to benchmark the annual input-output tables. Statistics provided from the Current Retail Sales and Inventory Survey are used to calculate the gross domestic product (GDP).

Estimates produced from the Current Retail Sales and Inventory Survey are based on a probability sample. The sample design consists of one fixed panel where all cases are requested to report sales and/or inventories each month.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Maricopa Association of Governments (MAG) requested the U.S. Census Bureau to conduct the CSMA to provide estimates for September 1, 2005 for Maricopa County, 24 designated jurisdictions, 5 sub-areas for Phoenix, Arizona, 2 sub-areas for Mesa, Arizona, and the balance of county. The estimates are:

Total resident population;
Total resident population living in housing units;
Total resident population not living in housing units;
Total housing units; and
Total occupied housing units.

The MAG requested that we produce the above estimates by a survey of housing units and a 100 percent enumeration of the non-housing unit population. The MAG will use the estimates for revenue sharing purposes. The Arizona State Legislature enacted legislation that allows the use of survey estimates for revenue sharing.

The Census Bureau will not certify the estimates nor will we use the estimates in our official population estimates program.

The housing unit survey will produce the estimates for resident population in housing units, housing units, and occupied housing units. We will contact each identified group quarters and visit outdoor locations to obtain the resident population not living in housing units. We will sum the two resident populations to produce the total number of residents.

Each housing unit will be asked one to three questions to determine whether it was occupied on September 1, 2005. If it was occupied, we will ask for the total number of people living in the housing unit and for each person's name, age, and sex. Although we will ask for the names, age, and sex of each household member in order to provide a more accurate count of residents, we will not report this information to the Maricopa County Association of Governments. We will ask each group quarters for its number of residents on the day we contact it. We will count the number of people at each outdoor location on the day we visit it.

II. Method of Collection

We will use a combination of mail, computer-assisted telephone interviewing, and personal visit interviewing to collect the information for each housing unit. Enumerators will telephone or visit the group quarters to obtain the number of residents.

III. Data

OMB Number: None.

Form Number: CSMA–1, CSMA–1(PV), and SC–116.

Type of Review: Regular.

Affected Public: Individuals or households, business or other for profit entities, and not-for-profit institutions.

Estimated Number of Respondents: 114,380 housing units; 1,275 group quarters.

Estimated Time Per Response: 5 minutes per housing unit; 10 minutes per group quarters.

Estimated Total Annual Burden Hours: 9,532 hours for housing units; 213 for group quarters.

Estimated Total Annual Cost: There are no costs to respondents other than that of their time to respond.

Respondent's Obligation: Voluntary.
Legal Authority: Title 13, United States Code, Section 8.

IV. Request for Comments
