SUPPLEMENTARY INFORMATION:

I. Background

On January 26, 2021, President Biden issued a Presidential Memorandum on Tribal Consultation and Strengthening Nation-to-Nation Relationships.¹ The memorandum directed all Federal agencies to take actions to strengthen their Tribal consultation policies and practices and to further the purposes of Executive Order 13175 (Consultation and Coordination With Indian Tribal Governments).

On November 15, 2021 (86 FR 63051), to enhance consultation and collaboration with Tribal governments, HUD published a notice in the **Federal Register** announcing its intention to establish its first Tribal advisory committee known as the "Tribal Intergovernmental Advisory Committee" (TIAC). The notice also solicited Tribal feedback on a proposed TIAC structure and its functions. HUD received 12 written comments representing many different perspectives, including Tribes, Tribal leaders, Tribal housing employees, individuals, housing authorities, and regional housing authorities in response to its November 15, 2021 notice. In general, commenters were supportive of establishing the TIAC.

These comments were reviewed and considered in revising the proposed structure. On March 31, 2022 (87 FR

18807), HUD published a notice in the **Federal Register** that announced the final structure of the TIAC and requested the submission of Tribal nominations to the TIAC. After HUD published a notice (June 28, 2022, 87 FR 38421) reopening the request for nominations to request additional nominations, HUD began to review all of the Tribal nominations for selection.

II. The Tribal Intergovernmental Advisory Committee

Today's notice announces the membership of the TIAC. The purpose of the TIAC is to further facilitate intergovernmental communication between HUD and Tribal leaders of federally recognized Tribes on all HUD programs, to make recommendations to HUD regarding current program regulations that may require revision, as well as suggest rulemaking methods to develop such changes, and to advise in the development of HUD's American Indian and Alaska Native (AI/AN) housing priorities. The function of TIAC is not to replace Tribal consultation, but rather serve as a tool to help supplement it.

In making the selections for membership on the TIAC, HUD's goal was to establish a committee whose membership reflects a balanced representation of Indian tribes. In addition to the Tribal representatives on the committee, there will be several HUD representatives, each representing various program offices, on the committee.

HUD appreciates commenters who submitted names of Alternates. HUD is only announcing Committee Members in today's Notice. However, each Committee Member should have an eligible Alternate in queue in case the Committee Member is unable to attend a particular committee meeting. As a reminder, the Alternate must meet the same eligibility criteria required of the selected Committee Member, specifically, that they must be either a duly elected Tribal official or Tribal employee. The Alternate cannot be a Tribally Designated Housing Entity employee. In the absence of a Committee Member, the Alternate will have the same rights, responsibilities, duties, and functions as a Committee Member during meetings. Each Committee Member has the discretion to decide who will best represent them in their absence. A Committee Member unable to attend any session must inform HUD in writing with an original signature as to whom they have selected to represent them and will specify the term. HUD will review all Alternates before a meeting to confirm that they

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA's definition of "take" includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations (CFR) at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.
