

of records may be disclosed in connection with litigation or settlement discussions regarding claims by or against the Agency, including public filing with a court, to the extent that disclosure of the information is relevant and necessary to the litigation or discussions and except where court orders are otherwise required under section (b)(11) of the Privacy Act of 1974, 5 U.S.C. 552a(b)(11).

L. Disclosure to Persons or Entities in Response to an Actual or Suspected Breach of Personally Identifiable Information: To appropriate agencies, entities, and persons when (1) the Agency suspects or has confirmed that there has been a breach of the system of records; (2) the Agency has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, the Agency (including its information systems, programs, and operations), the Federal Government, or national security; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Agency's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

M. Disclosure To Assist Another Agency in Its Efforts to Respond to a Breach: To another Federal agency or Federal entity, when the Agency determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

These records are maintained electronically on secure password protected servers. The secure servers and storage system reside in the National Computer Center's second floor computer room, 109 T.W. Alexander Drive, Research Triangle Park, NC 27709. Backups reside on a backup disk-based appliance and are replicated daily to an EPA-approved offsite location at Room S4730, 2777 Crystal Drive, Arlington, VA 22202.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are retrieved by patron's first and last name, email address, and system-generated unique patron ID. Records are only retrievable by

authorized library employees (who are EPA employees and contractors). These authorized library employees may only access patron data for the library at which the library employee works. The OLS Database Administrator, a library contractor, has access to all records in the OLS system and its modules.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

EPA will retain and dispose of these records in accordance with the National Archives and Records Administration General Records Schedule. OMS has established EPA record schedule 0088 for OLS. Records will be deleted or destroyed when the Agency determines they are no longer needed for administrative, legal, audit, or other purposes. The schedule provides disposal authorization for electronic files and hard copy printouts created to monitor system usage, including log-in files, audit trail files, and system usage files. EPA will delete or destroy records when it determines they are no longer needed for administrative, legal, audit, or other purposes.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

EPA uses security controls to protect PII/Privacy Act information in OLS commensurate with controls required for an information system rated moderate for confidentiality, integrity, and availability, as prescribed in NIST Special Publication, 800-53, "Recommended Security Controls for Federal Information Systems," Revision 4.

Administrative Safeguards: EPA employees and contractors must complete annual agency training for Information Security and Privacy. EPA instructs contractors and employees to lock and secure their computers when unattended.

Technical Safeguards: The OLS Database Administrator, a library contractor, establishes authorized library employees upon request of the local library manager (EPA staff). Permission level assignments allow authorized users to access only those functions and records specific to the module they are using and their local library. EPA also has technical security measures including restrictions on computer access to authorized individuals and required use of a personal identity verification (PIV) card and password.

Physical Safeguards: EPA equipment used for OLS is located in a secure area of the National Computer Center, 109 T.W. Alexander Drive, Research Triangle Park, NC 27709.

RECORD ACCESS PROCEDURES:

EPA requires individuals seeking access to information in this system of records about themselves to provide adequate identification documentation (e.g., driver's license, military identification card, employee badge or identification card). Additional identity verification procedures may be required, as warranted. Requests must meet the requirements of EPA regulations that implement the Privacy Act of 1974, at 40 CFR part 16.

CONTESTING RECORD PROCEDURES:

Any individual who requests correction or amendment of OLS records must identify the record to be changed and the corrective action sought. Complete EPA Privacy Act procedures are described in EPA's Privacy Act regulations at 40 CFR part 16.

NOTIFICATION PROCEDURE:

Any individual who wishes to know whether this system of records contains a record about themselves, and to obtain a copy of any such record(s), should make a written request to the Attn: Agency Privacy Officer, MC 2831T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, privacy@epa.gov.

General questions about the Fleet Access system should be made in writing to: James Cunningham, (202) 564-7212, Cunningham.James@epa.gov; Jackie Brown, (202) 564-0313, Brown.Jackie@epa.gov; and Jonathan Barnes, (202) 564-1950, Barnes.Jonathan@epa.gov.

SUPPLEMENTARY INFORMATION: Fleet Access stores vehicle level data such as license plate, VIN, make, model, acquisition value/and or lease rates as well as designations regarding alternative fuel, energy, and sustainability mandates. Fleet Access is used to produce an end-of-year report known as the Federal Automotive

Statistical Tool Report (FAST Report) submitted jointly to the Department of Energy (DOE), the General Services Administration (GSA), and the Idaho National Lab (INL). The FAST report summarizes each vehicle's yearly data with respect to fuel, mileage, maintenance, acquisition, and disposal. Fleet Access also serves as a comprehensive standardized vehicle reservation system used by agency staff needing to reserve and utilize fleet vehicles for official agency business. Vehicle registration features of Fleet Access requires system users register personal business information in order to reserve agency fleet assets.
