OMB Control Number: 3060-XXXX.

Title: Surrenders of Authorizations for International Carrier, Space Station and Earth Station Licensees.

Form No.: N/A.

Type of Review: New collection.

Respondents: Businesses or other for-profit entities.

Number of Respondents: 306 respondents; 306 responses.

Estimated Time Per Response: 1 hour.
Frequency of Response: On occasion reporting requirement.

Estimated Total Annual Burden: 306 hours.

Estimated Total Annual Costs: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Federal

Communications Commission ("Commission") is requesting that the Office of Management and Budget (OMB) approve the establishment of a new collection for surrenders of authorizations for international carriers (214 authorizations), space stations and earth stations. A surrender of authorization is the licensee's voluntary cancellation of a license (or authorization) to provide international telecommunications services, such as discontinuing operation of a space station.

This new collection is being initiated as a result of the Commission's release of a Public Notice (DA 06-569) on March 15, 2006 titled, "International Bureau Announces New and Improved Filing Modules Within Its MyIBFS Electronic Filing System: Surrender of Authorization and Improved Space Station Milestone Filing." The Public Notice announced the International Bureau's launching of an E-filing module for surrendering authorizations and an improved milestone filing module for satellite space stations within its MyIBFS consolidated licensing and electronic filing system. (**Note:** The OMB approved the electronic filing of milestones under OMB Control No. 3060-1007).

Additionally, the Commission is requesting the OMB's approval of mandatory electronic filing of surrenders of authorizations that do not fall under Part 25 of the Commission's rules. Currently, the surrender module is available to licensees in MyIBFS who are not required to comply with Part 25 on a voluntary basis. (**Note:** The OMB approved electronic filing of all Part 25-related applications and associated documents under OMB Control No. 3060-0678).

Without this collection of information, licensees would be required to submit surrenders of authorizations to the Commission by letter which is more time consuming than submitting such requests to the Commission electronically. In addition, Commission staff would spend an extensive amount of time processing surrenders of authorizations received by letter. The collection of information saves time for both licensees and Commission staff since they are received in MyIBFS electronically and include only the information that is
