

regarding the quality and effectiveness of health care.

Section 911(a), part B, Title IX, Healthcare Research and Quality Act of 1999, requires in part that AHRQ, in collaboration with experts from the public and private sectors, identify methods or systems to assess health care research results, particularly "methods or systems to rate the strength of the scientific evidence underlying health care practice, recommendations in the research literature, and technology assessments." The Agency is to make methods or systems for rating evidence, widely available. To inform its response to this mandate, AHRQ invites public comments on the RTI/UNC EPC study noted above.

Dated: May 17, 2002.

Carolyn M. Clancy,
Acting Director.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the

Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Evaluation of Customer Satisfaction of the Centers for Disease Control and Prevention (CDC) and Agency for Toxic Substances and Disease Registry (ATSDR) Internet Home Page and Links

(OMB. No. 0920-0449)—Extension—CDC and ATSDR proposes to continue to conduct consumer satisfaction research around its Internet site in order to determine whether the information, services, and materials on this web site are presented in an appropriate technological format and whether it meets the needs, wants, and preferences of visitors or "customers" to the Internet site. The re-authorized survey will be conducted over the next three years and survey results will be analyzed and interpreted semiannually. Customers on the web site will only be asked to respond once.

Information on the site focuses on disease prevention, health promotion, and epidemiology. The site is designed to serve the general public, persons at risk for disease, injury, and illness, and health professionals. This research will ensure that these audiences have the opportunity to provide "customer feedback" regarding the value and effectiveness of the information, services, and products of the CDC and ATSDR Web site and whether these materials are easy to access, clear and informative. There are no costs to respondents.

Respondents	Number of respondents	Number of responses/respondent	Average burden/response (in hours)	Total burden (in hours)
Visitors to CDC Internet Site	13,000	1	10/60	2,166
Total				2,166

Dated: May 17, 2002.

John Moore,
Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.
