

Letter 06–03, as supplemented by the ACSA Implementation Message issued in 2008, which is attached as Annex 4 at the end of the guidance document.

Specifically, the guidance document provides new details with respect to the exemption of H&G vessels from the load line requirements, which is contained in the ACSA Implementation Message. Because H&G vessels engage in catching fish, they meet the definition of “fishing vessel” under the International Convention on Load Lines, 1966, and are not subject to international load line requirements. In accordance with 46 U.S.C. 5108(a)(1), a vessel entitled to an exemption under an international agreement may also be granted an exemption under U.S. law. Therefore, a District Commander may exempt an owner’s H&G vessel from domestic voyage load line requirements, pursuant to 46 CFR 42.03–30, upon verification by the Officer in Charge, Marine Inspection that the vessel is fully enrolled and in compliance with the elements of the ACSA program. This exemption may be granted at the same time the vessel is granted an exemption from classification requirements, pursuant to 46 CFR 28.60, and noted in the same exemption letter in lieu of a separate load line exemption certificate.

Dated: March 18, 2009.

Rear Admiral James A. Watson,
Director of Prevention Policy.
