Needs and Uses: On November 19, 2007, the Commission released the *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Report and Order and Declaratory Ruling (2007 TRS Cost Recovery Order), CG Docket No. 03-123, FCC 07-186, adopting (1) A new cost recovery methodology for interstate traditional Telecommunications Relay Services (TRS) and interstate Speech-to-Speech (STS) based on the Multi-state Average Rate Structure (MARS) plan proposed by Hamilton Relay, Inc., (2) a new cost recovery methodology for interstate captioned telephone service (CTS) and interstate and intrastate Internet-Protocol (IP) Captioned Telephone Service (IP CTS) based on the MARS plan, (3) a cost recovery methodology for IP Relay based on price caps, and (4) a cost recovery methodology for Video Relay Services (VRS) that adopts tiered rates based on call volume. The 2007 TRS Cost Recovery Order also clarifies the nature and extent that certain categories of costs are compensable from the Interstate TRS Fund (Fund), and addresses certain issues concerning the management and oversight of the Fund, including financial incentives offered to consumers to make relay calls and the role of the Interstate TRS Fund Advisory Council.

The 2007 TRS Cost Recovery Order establishes reporting requirements associated with the MARS plan cost recovery methodology for compensation from the Fund. Specifically, TRS providers must submit to the Fund administrator the following information annually, on a per-state basis, regarding the previous calendar year: (1) The per-minute compensation rate(s) for intrastate traditional TRS, STS and CTS, (2) whether the rate applies to session minutes or conversation minutes, (3) the number of intrastate session minutes for traditional TRS, STS and CTS, and (4) the number of intrastate conversation minutes for traditional TRS, STS, and CTS. Also, STS providers must file a report annually with the Fund administrator and the Commission on their specific outreach efforts directly attributable to the additional compensation approved by the Commission for STS outreach.

In the 2007 TRS Cost Recovery Order, the Commission has assessed the effects of imposing the submission of rate data, and has found that there is no increased administrative burden on businesses with fewer than 25 employees. The Commission recognizes that the required rate data is presently available with the states and the providers of interstate traditional TRS, interstate STS, and interstate CTS, thereby no additional step is required to produce such data.

The Commission therefore believes that the submission of the rate data does not increase an administrative burden on businesses.
