### Section 8—Application for Interim Waiver

In accordance with 10 CFR 431.401 (a)(2) SFC takes this opportunity to also submit an Application for Interim Waiver of test procedures for our ECO-i models listed in Section 2 of this document and there matching indoor units. SFC believes that it is likely that our Petition for Waiver will be granted based upon, but not limited to, the following:

- The approvals of similar waiver requests as identified in Table 1 of Section 1 of this document.
- Failure to approve our Petition for Waiver and Application for Interim Waiver will result in significant economic hardship due to the following:
  - It is our intention to introduce our ECO-i product in the Spring of 2007. A great deal of company emphasis has been, and will be, placed on the introduction of this product, including show exhibitions (such as AHR, ACCA, etc.), marketing/advertising campaign, customer training and other expenditures of both financial and human resources. Delaying our entry into the U.S. market with the ECO-i product will impede our ability to compete in this growing market.
  - A significant portion of our projected sales revenues are dependent upon the timely introduction of this product.
- DOE's statement:

“\* \* \* an interim waiver will be granted if it is determined that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistance Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination for the Petition for Waiver” (Case CAC-009, 70 Fed Reg 9629, at 9630 (Feb 28, 2005 Samsung Interim Waiver). See 10 CFR 431.201(e)(3)(2005).

• SFC's ECO-i product line is quite similar to that of Fujitsu's VRF system, Mitsubishi's City Multi system and Samsung's DVM system. Realizing these similarities, DOE granted an:

- Interim waiver to Fujitsu in January 2006 for their AirStage Air Source product.
- Interim waiver to Samsung Air Conditioning in 2005 for their DVM System.
- Interim waiver to Mitsubishi for their R-410a City Multi air source product in March 2006.

○ Petition for Waiver to Mitsubishi for their R-22 City Multi air source product in 2004.

• The approval of this waiver and interim waiver is in the best interest of our public and government initiatives to reduce national energy usage.

It is therefore reasonable for one to believe that SFC's petition will also be granted.

### Section 9—Conclusion

It is clear that without the approval of this Petition for Waiver and Application for Interim Waiver that SFC will result in our inability to compete in the United States VRF market, a market in which our company has proven success in many other countries throughout the world. We are pleased to have an opportunity to bring this leading edge technology to the United States market, to not only improve the comfort of Americans, but also to reduce the amount of energy consumed on building cooling and heating.

SFC respectfully requests the Department of Energy to grant our Application for Interim Waiver and our Petition for Waiver from Test Procedure to enable our introduction of our advanced ECO-i products to the U.S. market. Granting these requested waivers will permit us to effectively compete in the marketplace.

Due to our near term introduction of our ECO-i product offering we would greatly appreciate a timely response to this Petition for Waiver from Test Procedure and Application for Interim Waiver.

Should you or any parties have questions related to this Petition for Waiver from Test Procedure and Application for Interim Waiver, please contact Gary Nettinger at 678-384-3115 or Davis Watkins at 678-384-3112.

Sincerely,  
Davis Watkins, Vice President; Applied Products Group, Sanyo Fisher Company, 1690 Roberts Blvd., NW., Suite 110, Kennesaw, GA 30144.
