SUPPLEMENTARY INFORMATION: Before 1940, African Americans were barred from flying for the U.S. military. Civil rights organizations and the black press exerted pressure that resulted in the formation of an all African-American pursuit squadron based in Tuskegee, Alabama in 1941. They became known as the Tuskegee Airmen. The Tuskegee Airmen overcame segregation and prejudice to become one of the most highly respected fighter groups of World War II. They proved conclusively that African Americans could fly and maintain sophisticated combat aircraft. The Tuskegee Airmen's achievements, together with the men and women who supported them, paved the way for full integration of the U.S. military. The Tuskegee Airmen National Historic Site at Moton Field in Tuskegee, Alabama, was established on November 6, 1998, with the signing of Public Law 105-355. The park was created to commemorate and interpret the heroic actions of the Tuskegee Airmen during World War II.

A General Management Plan and Environmental Impact Statement would

provide the park with guidance and direction to manage natural and cultural resources and to provide a quality visitor experience. This will be the National Historic Site's first General Management Plan. The plan will establish management prescriptions, carrying capacities, and appropriate types and levels of development and recreational use for all areas of the park. Resource protection, visitor experiences and community relationships will be improved through completion and implementation of the General Management Plan.

Public documents associated with the planning effort, including all newsletters, will be posted on the Internet through the park's Web site at <http://www.nps.gov/tuai>.

The Draft and Final General Management Plan and Environmental Impact Statement will be made available to all known interested parties and appropriate agencies. Full public participation by Federal, State, and local agencies as well as other concerned organizations and private citizens is invited throughout the preparation process of this document.

The responsible official for this Environmental Impact Statement is Patricia A. Hooks, Acting Regional Director, Southeast Region, National Park Service, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303.

Dated: January 6, 2004.
