

that an antenna structure may cause a hazard to air navigation. In 1992, Congress amended Sections 303(q) and 503(b)(5) of the Communications Act to:

- (1) Make antenna structure owners, as well as Commission licensees and permittees responsible for the painting and lighting of antenna structures, and
- (2) to provide the non-license antenna structure owners may be subject to forfeiture for violations of painting or lighting requirements specified by the Commission.

Currently, each antenna structure owner proposing to construct or alter an antenna structure that is more than 60.96 meters (200 feet) in height, or that may interfere with the approach or departure space of a nearby airport runway must notify the Federal Aviation Administration (FAA) of proposed construction. The FAA determines whether the antenna structure constitutes a potential hazard, and may recommend appropriate painting and lighting for the structure. The Commission then uses the FAA's recommendation to impose specific painting and/or lighting requirements on subject licensees.

OMB Control No.: 3060–1039.

Title: Nationwide Programmatic Agreement Regarding the Section 106 National Historic Preservation Act-Review Process, WT Docket No. 03–128.
