#### SUPPLEMENTARY INFORMATION:

**Agenda:** On August 16, 2016, the committee will discuss and make recommendations regarding the appropriateness of clearing or approving of over-the-counter (OTC) diagnostic tests for the detection of pathogens causing infectious diseases, focusing on respiratory and sexually transmitted infections (STI). Currently, there are no OTC diagnostic tests for infectious diseases cleared or approved by CDRH. The committee will evaluate the risks and benefits to individual patients and to public health associated with clearing or approving OTC diagnostic tests for infectious diseases. Serious risks such as false negative results, false positive results, patient loss to medical followup, and the impact on surveillance of reportable infections will

be addressed. Potential benefits such as reduction of infection transmission and increased access to testing will be discussed as well. The committee will also make recommendations on clinical study design, analytical study design, and acceptable performance criteria applicable to respiratory and STI diagnostic devices.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its Web site prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's Web site after the meeting. Background material is available at <http://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link.

**Procedure:** Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person on or before August 2, 2016. Oral presentations from the public will be scheduled between approximately 1 p.m. and 2 p.m. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before July 15, 2016. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by July 21, 2016.
