SUPPLEMENTARY INFORMATION:

Background

On July 28, 2004, the Federal Aviation Administration (FAA) issued a notice announcing that it would conduct a meeting to discuss flight reductions at O'Hare to reduce over scheduling and flight delays during peak hours at the airport (69 FR 46201; August 2, 2004). The FAA also invited the submission of written information from interested person on such schedule reductions. The FAA plans to issue a decision on delay reductions in a final order. The meeting began on August 4 and is continuing. It was open to all scheduled carriers, regardless of whether they currently serve O'Hare. The FAA originally solicited written information filed on or before August 11, 2004.

Extension of Request for Information

Discussions with the air carriers regarding their scheduled operations at O'Hare are continuing. The FAA designated a short period for submitting information, as the FAA has previously indicated its intentions to address this issue as soon as possible to accommodate the implementation of the air carriers' November 2004 schedules. Given that the discussions are

continuing, the FAA finds that it would benefit the public and the agency to keep the public docket open for as long as possible to afford interested persons more time to submit written information.

The FAA will provide actual notice to all parties that attended the meeting. The FAA has determined that extension of the period for submitting written information is consistent with the public interest, and that good cause exists for taking this action.

Accordingly, the period is extended until 12 p.m. on August 13, 2004.

We will consider all information we receive on or before the extended closing date. We will consider information filed late if it is possible to do so without incurring expense or delay.

Public Availability and Confidentiality of Information

Except as provided below, we will file in the docket without change all information we receive. The docket is available for public inspection before and after its closing date. If you wish to review the docket in person, go to the address in the **ADDRESSES** section of this preamble between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. In addition, please mark the information that you consider proprietary or confidential. Under 14 CFR 11.35(b), when we are aware of proprietary information filed with a submission, we do not place it in the docket. We hold it in a separate file to which the public does not have access, and place a note in the docket that we have received it. If we receive a request to examine or copy this information, we treat it as any other request under the Freedom of Information Act (5 U.S.C. 552). We process such a request under the DOT procedures found in 49 CFR part 7.
