

liquidate the appropriate entries without regard to antidumping duties.

For the companies which were not selected for individual review, we intend to assign an assessment rate based on the methodology described in the “Rates for Non-Examined Companies” section.

Commerce intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Cash Deposit Requirement

The following cash deposit requirements will be effective upon publication of the notice of the final results of administrative review for all shipments of nails from Oman entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the companies under review will be the rate established in the final results of this review (except, if the rate is zero or *de minimis*, as it is for Oman Fasteners LLC in these preliminary results. In that case, no cash deposit will be required); (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the manufacturer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the manufacturer is, then the cash deposit rate will be the rate established for the most recently completed segment of the proceeding for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 9.10 percent *ad valorem*, the all-others rate established in the less-than-fair value investigation.²²

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding

the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

These preliminary results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h)(1).

Dated: September 23, 2020.

Scope of the Investigations

The product covered by these investigations is PC strand. For a full description of the scope of these investigations, see the "Scope of the Investigations," in Appendix I of this notice.

Scope Comments

In accordance with the *Preamble* to Commerce's regulations,³ the Initiation Notice set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁴ However, Commerce received no comments on the scope of these investigations from interested parties.

Methodology

Commerce is conducting these investigations in accordance with section 731 of the Tariff Act of 1930, as amended (the Act). Pursuant to sections 776(a) and (b) of the Act, Commerce has preliminarily relied upon facts otherwise available to assign estimated weighted-average dumping margins to the mandatory respondents in these seven investigations because none of the respondents either submitted a response to Commerce's antidumping duty questionnaire, or submitted a timely response to Commerce's antidumping duty questionnaire. Further, Commerce is preliminarily determining that these mandatory respondents failed to cooperate by not acting to the best of their ability to comply with a request for information and is using an adverse inference when selecting from among the facts otherwise available (*i.e.*,

applying adverse facts available (AFA)) to these respondents, in accordance with section 776(b) of Act. For a full description of the methodology underlying our preliminary determinations, see the Preliminary Decision Memoranda.

Critical Circumstances

On August 24, 2020, the petitioners⁵ timely filed critical circumstances allegations, pursuant to section 733(e)(1) of the Act and 19 CFR 351.206(c)(1), alleging that critical circumstances exist with respect to imports of the subject merchandise from Colombia, Egypt, and the Netherlands.⁶ On August 28, 2020, Commerce requested that the petitioners file an addendum to their critical circumstances allegation.⁷ In response, the petitioners filed an addendum providing the requested additional U.S. import data.⁸ We received no rebuttal information from interested parties.

On September 2, 2020, the petitioners timely filed a critical circumstances allegation, pursuant to section 733(e)(1) of the Act and 19 CFR 351.206(c)(1), alleging that critical circumstances exist with respect to imports of the PC strand from Turkey.⁹ Also on September 2, 2020, Commerce requested that Celik Halat provide monthly quantity and value (Q&V) data.¹⁰ On September 3, 2020, Commerce requested that the petitioners file an addendum to their critical circumstances allegation.¹¹ In response, Celik Halat filed the requested Q&V data and the petitioners filed an addendum providing the requested

additional U.S. import data.¹² The petitioners did not file a critical circumstances allegation with respect to Argentina, Saudi Arabia, or the UAE.

Section 733(e)(1) of the Act provides that Commerce will preliminarily determine that critical circumstances exist in an LTFV investigation if there is a reasonable basis to believe or suspect that: (A) There is a history of dumping and material injury by reason of dumped imports in the United States or elsewhere of the subject merchandise, or the person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the subject merchandise at less than its fair value and that there was likely to be material injury by reason of such sales; and (B) there have been massive imports of the subject merchandise over a relatively short period. We preliminarily determine that critical circumstances exist with respect to imports of PC strand exported by (1) Knight SAS from Colombia; (2) United Wires Company Elsewedy and all other producers/exporters from Egypt; (3) Nedri Spanstaal BV from the Netherlands; and (4) Celik Halat, Güney Celik, and all other producers/exporters from Turkey.¹³

All-Others Rate

Sections 733(d)(1)(ii) of the Act provides that in the preliminary determination Commerce shall determine an estimated all-others rate for all exporters and producers not individually investigated, in accordance with section 735(c)(5) of the Act. Section 735(c)(5)(A) of the Act states that generally the estimated rate for all others shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act. The estimated weighted-average dumping margins in these preliminary determinations were determined entirely under section 776 of the Act. In cases where no weighted-average dumping margins other than zero, *de minimis*, or those determined entirely under section 776 of the Act have been established for individually examined entities, in accordance with

Appendix I

Scope of the Investigations

The merchandise covered by these investigations is prestressed concrete steel wire strand (PC strand), produced from wire of non-stainless, non-galvanized steel, which is suitable for use in prestressed concrete (both pretensioned and post-tensioned) applications. The product definition encompasses covered and uncovered strand and all types, grades, and diameters of PC strand. PC strand is normally sold in the United States in sizes ranging from 0.25 inches to 0.70 inches in diameter. PC strand made from galvanized wire is only excluded from the scope if the zinc and/or zinc oxide coating meets or exceeds the 0.40 oz./ft² standard set forth in ASTM-A-475.

The PC strand subject to these investigations is currently classifiable under subheadings 7312.10.3010 and 7312.10.3012 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these investigations is dispositive.

Prestressed Concrete Steel Wire Strand From Taiwan: Preliminary Affirmative Determination of Sales at Less Than Fair Value and Negative Preliminary Determination of Critical Circumstances

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that prestressed concrete steel wire strand (PC strand) from Taiwan is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is April 1, 2019 through March 31, 2020. Interested parties are invited to comment on this preliminary determination.

SUPPLEMENTARY INFORMATION:**Background**

This preliminary determination is made in accordance with section 733(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this investigation on May 13, 2020.¹ For a complete description of the events that followed the initiation of this investigation, *see* the Preliminary Decision Memorandum.² A list of topics included in the Preliminary Decision Memorandum is included as Appendix II to this notice. ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Scope of the Investigation

The product covered by this investigation is PC strand from Taiwan. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

In accordance with the preamble to Commerce’s regulations,³ the *Initiation Notice* set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁴ No interested party commented on the scope of the investigation as it appeared in the *Initiation Notice*. Therefore, Commerce is not preliminarily modifying the scope language as it appeared in the *Initiation Notice*. *See* the scope in Appendix I to this notice.

Methodology

Commerce is conducting this investigation in accordance with section 731 of the Act. Pursuant to section 776(a) and (b) of the Act, Commerce has preliminarily relied upon facts otherwise available, with adverse inferences, for Chia Ta World Co., Ltd. (Chia Ta). For a full description of the methodology underlying the preliminary determination, *see* the Preliminary Decision Memorandum.

Preliminary Negative Determination of Critical Circumstances

In accordance with section 733(e) of the Act and 19 CFR 351.206, Commerce preliminarily determines that critical circumstances do not exist for Chia Ta and all other producers/exporters of PC strand from Taiwan. For a full description of the methodology and results of Commerce’s critical circumstances analysis, *see* the Preliminary Decision Memorandum.

All-Others Rate

Sections 733(d)(1)(ii) and 735(c)(5)(A) of the Act provide that in the preliminary determination Commerce shall determine an estimated all-others rate for all exporters and producers not

individually investigated. This rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act.

Pursuant to section 735(c)(5)(B) of the Act, if the estimated weighted-average dumping margins established for all exporters and producers individually examined are zero, *de minimis*, or determined based entirely on facts otherwise available, Commerce may use any reasonable method to establish the estimated weighted-average dumping margin for all other producers or exporters. Commerce has preliminarily determined the estimated weighted-average dumping margin for Chia Ta, the sole mandatory respondent, under section 776 of the Act. Consequently, pursuant to section 735(c)(5)(B) of the Act, Commerce’s normal practice under these circumstances has been to calculate the all-others rate as a simple average of the alleged dumping margins from the petition. With respect to Taiwan, in the Petitions,⁵ the petitioners⁶ alleged only one margin. Therefore, we have preliminarily assigned the only margin alleged for subject merchandise from Taiwan in the Petitions, which is 23.89 percent, to all other producers/exporters.⁷

Preliminary Determination
