Cost of Production and Constructed Value

We calculated the cost of production and constructed value for Amtex based on the same methodologies used in the *Preliminary Determination*.

Verifications

As provided in section 782(i)(1) of the Act, we verified the information submitted by respondents during the

period February 21 through 25, 2005. See *Verification Report*. We used standard verification procedures, including examination of relevant accounting and production records, as well as original source documents provided by the respondents.

Analysis of Comments Received

We did not receive any interested party comments on our preliminary decision or on our *Verification Report*. Therefore, there is no Issues and Decisions Memorandum for this final determination.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B)(ii) of the Act, we are

directing the U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all imports of subject merchandise from Mexico that are entered, or withdrawn from warehouse, for consumption on or after December 27, 2004, the date of publication of the *Preliminary Determination* in the **Federal Register**. The CBP shall continue to require a cash deposit or the posting of a bond equal to the weighted-average amount by which the NV exceeds the EP, as indicated in the chart below. These suspension-of-liquidation instructions will remain in effect until further notice. The weighted-average dumping margins are as follows:

Producer	POI	Weighted-Average Margin (percent)
Quimica Amtex, S.A. de C.V.	04/01/03 - 03/31/04	12.61
All Others	04/01/03 - 03/31/04	12.61

See Memorandum to the File, Final Determination Analysis for Quimica Amtex, S.A. de C.V., dated May 10, 2005. Public versions of the analysis memorandum are on file in the CRU.

ITC Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (ITC) of our determination. As our final determination is affirmative, the ITC will, within 45 days, determine whether these imports are materially injuring, or threatening material injury to, the United States industry. If the ITC determines that material injury, or threat of material injury, does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order.

Notification to Interested Parties

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.
