

POLICY JUSTIFICATION***Korea—Peace Krypton Follow-On Support and Equipment Upgrades***

The Republic of Korea has requested to buy items and services to extend follow-on support to its Peace Krypton reconnaissance aircraft. Included are Ground System Modernization (GSM) and sustainment of Prime Mission Equipment (PME); Field Service Representatives (FSR); minor modifications and upgrades; Joint Mission Planning System (JMPS); spares and repair and return of parts; publications and technical documentation; U.S. Government and contractor engineering, technical, and logistical support services; and other related elements of logistics and program support. The estimated total program cost is \$250 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a Major Non-NATO Ally that is a force for political stability and economic progress in the Pacific region.

The proposed sale will improve Korea's capability to meet current and

future threats by supporting operation of its fleet of Peace Krypton aircraft and enabling continued Intelligence, Surveillance and Reconnaissance (ISR) interoperability with the United States. Korea will have no difficulty absorbing this follow-on support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Bethesda, MD. There are no known offset requirements associated with this sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION

Argentina—Stryker Infantry Carrier Vehicles

The Government of Argentina has requested to buy twenty-seven (27) M1126 Stryker Infantry Carrier Vehicles and twenty-seven (27) M2 Flex .50 Cal Machine Guns. Also included are AN/VAS-5 Driver's Vision Enhancers; AN/VIC-3 Vehicle Intercom Systems; AN/VRC-91E Single Channel Ground and Airborne Radio System (SINCGARS); Basic Issue Items (Bli); Components of End Items (COEI); Additional Authorized List (AAL); Special Tools and Test Equipment (STTE); M6 Smoke Grenade launchers and associated

spares; Outside Continental United States (OCONUS) De-processing Service; OCONUS Contractor-provided training; Field Service Representatives (FSR); technical manuals; spare parts; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistical and program support. The total estimated program cost is \$100 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a Major Non-NATO Ally that is a strategic partner in South America.

The proposed sale will improve Argentina's capability to meet current and future threats by increasing operational capabilities and force availability. Argentina will use the Stryker vehicles to conduct stability operations in support of disaster relief and international peace keeping obligations. Argentina will have no difficulty absorbing these vehicles into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractor will be General Dynamics Land Systems, Anniston, AL. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the temporary assignment of two (2) U.S. contractor representatives to Argentina to support the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-31

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The M1126 Stryker is an infantry carrier vehicle transporting nine soldiers, their mission equipment, and a crew of two, consisting of a driver and vehicle commander. It is equipped with armor protection, M2 machine guns, and M6 smoke grenade launchers for self-protection. The Stryker is an eight-wheeled vehicle powered by a 350 hp diesel engine. It incorporates a central tire inflation system, run-flat tires, and a vehicle height management system. The Stryker is capable of supporting a communications suite, a Global Positioning System (GPS), and a high frequency and near-term digital radio systems. The Stryker is deployable by C-130 aircraft and combat capable upon arrival. The Stryker is capable of self-deployment by highway and self-recovery. It has a low noise level that reduces crew fatigue and enhances survivability. It moves about the battlefield quickly and is optimized for close, complex, or urban terrain. The Stryker program leverages non-developmental items with common subsystems and components to quickly acquire and field these systems.

2. The AN/VAS-5 Driver's Vision Enhancer is a compact thermal camera providing armored vehicle drivers with day or night time visual awareness in clear or reduced vision (fog, smoke, dust) situations. The system provides the driver a 180 degree viewing angle using a high resolution infrared sensor and image stabilization to reduce the effect of shock and vibration. The viewer and monitor are ruggedized for operation in tactical environments.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or

be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Argentina can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to the Argentina.
