Stainless Steel Sheet and Strip in Coils From Mexico; Antidumping Duty Administrative Review; Extension of Time Limit

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit.

SUMMARY: The Department of Commerce (the Department) is extending the time limit for the final results of the 2001-2002 administrative review of the antidumping duty order on stainless steel sheet and strip in coils from Mexico. This review covers one manufacturer/exporter of the subject merchandise to the United States, ThyssenKrupp Mexinox S.A. de C.V., and the period July 1, 2001 through June 30, 2002.

EFFECTIVE DATE: October 14, 2003.

FOR FURTHER INFORMATION CONTACT: Deborah Scott at (202) 482-2657 or Robert James at (202) 482-0649, Antidumping and Countervailing Duty Enforcement Group III, Office Eight, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION: On August 7, 2003, we published the preliminary results of the administrative review of stainless steel sheet and strip in coils from Mexico for the period July 1, 2001 through June 30, 2002. *See Stainless Steel Sheet and Strip in Coils from Mexico; Preliminary Results of Antidumping Duty Administrative Review*, 68 FR 47043 (August 7, 2003). Pursuant to the time limits for administrative reviews set forth in section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Tariff Act),

currently the final results of this administrative review are due on December 5, 2003. It is not practicable to complete this review within the normal statutory time limit due to a number of significant case issues, such as level of trade, the calculation of general and administrative expenses and interest expenses for cost of production and constructed value, and the inclusion of certain affiliated sales in the margin calculation. Making a determination with respect to these issues requires considerable scrutiny of respondent's questionnaire and supplemental questionnaire responses. Thus, it is not practicable to complete this review within the normal statutory time limit. Therefore, the Department is extending the time limit for completion of the final results until February 3, 2004 in accordance with section 751(a)(3)(A) of the Tariff Act.

Dated: October 7, 2003.

Richard O. Weible,

Acting Deputy Assistant Secretary for Import Administration, Group III.

ACTION: Receipt of application

SUMMARY: Notice is hereby given that the Northeast Fisheries Science Center, National Marine Fisheries Service, 166 Water Street, Woods Hole, MA 02543-1097, has applied in due form for a permit to take loggerhead (*Caretta caretta*), leatherback (*Dermochelys*

coriacea), Kemp's ridley (*Lepidochelys kempii*), green (*Chelonia mydas*), and hawksbill (*Eretmochelys imbricata*) sea turtles for purposes of scientific research.

DATES: Written or telefaxed comments must be received on or before November 13, 2003.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 713-2289; fax (301) 713-0376; and Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298; phone (978) 281-9200; fax (978) 281-9371.

FOR FURTHER INFORMATION CONTACT: Patrick Opay, (301) 713-1401 or Sarah Wilkin, (301) 713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The applicant proposes to conduct biological sampling of sea turtles incidentally taken in commercial fisheries in state waters and the Exclusive Economic Zone in the northwest Atlantic Ocean. The primary objectives of the proposed research are to determine the size and composition of populations of sea turtles found in the commercial fishing areas and to establish individual identities of turtles which will permit subsequent determination of growth rates, possible stock origins and movement patterns. The research will contribute to the understanding of the pelagic ecology of these species, permit more complete models of their population dynamics, and allow more reliable assessments of commercial fishery impacts.

The researchers will sample turtles which have already been taken in legally operating commercial fisheries operating from the Gulf of Maine through North Carolina. The applicant proposes to photograph, measure, scan for PIT tags, biopsy sample, flipper tag and transport 300 loggerhead, 85 leatherback, 10 Kemp's ridley, 10 green, and 10 hawksbill sea turtles annually. The applicant is requesting a 5 year permit. No mortalities are expected as a result of this research.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits,

Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301) 713-0376, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period. Please note that comments will not be accepted by e-mail or by other electronic media.
