History

On Wednesday, February 25, 2004, the FAA proposed to revise part 71 of the Federal Aviation Regulations (14 CFR part 71) to add to the Class E airspace upward from 700 ft. above the surface at Platinum, AK (69 FR 8585). The action was proposed in order to add Class E airspace sufficient in size to contain aircraft while executing a new SIAP for the Platinum Airport. The new approach is Area Navigation-Global Positioning System (RNAV GPS) Runway 13, original. Additional Class E controlled airspace extending upward from 700 feet above the surface within a 6.3-mile radius of the Platinum Airport area is established by this action. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments have been received, thus, the rule is adopted as proposed.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9L, Airspace Designations
