Comment Date: 5 p.m. Eastern Time on Friday, August 03, 2007.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov. or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Scoping Meetings

FERC staff will conduct one agency scoping meeting and one public meeting. The agency scoping meeting will focus on resource agency and non-governmental organization (NGO) concerns, while the public scoping meeting is primarily for public input. All interested individuals, organizations, and agencies are invited to attend one or both of the meetings, and to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EA. The times and locations of these meetings are as follows:

Agency Scoping Meeting

Date: Tuesday, August 21, 2007.

Time: 2 p.m.

Place: National Guard Armory,
Address: 1070 Highway 41 North,
Dillon, MT 59725.

Public Scoping Meeting

Date: Tuesday, August 21, 2007.

Time: 7 p.m.

Place: National Guard Armory,
Address: 1070 Highway 41 North,
Dillon, MT 59725.

Copies of the Scoping Document (SD1) outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list. Copies of the SD1 will be available at the scoping meeting or may be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link (see item m above).

Site Visit

The Applicant and FERC staff will conduct a project site visit beginning at 9 p.m. on August 21, 2007. All interested individuals, organizations, and agencies are invited to attend. All participants are responsible for their own transportation to the site. All participants should meet at the public fishing access area immediately below Clark Canyon dam. To reach the access area from Dillon, Montana, (1) proceed south on I-15 approximately 22 miles to the exit marked "Clark Canyon Dam and Recreation Area;" (2) proceed about 0.75 mile across the crest of the dam and take the first right turn about 0.25 mile past the dam to the Beaverhead River Fishing Access; and (3) continue to the public fishing access area immediately below the dam. Upon arrival, all participants must be prepared to present proper identification (e.g., current driver's license or alternate source with picture identification). All participants are subject to government identification investigations and, upon completion, may receive a temporary identification badge for the duration of the visit. Anyone with questions about the site visit should contact Mr. Matt Cutlip of the Commission at 503-552-2762.

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the

resource issues to be addressed in the EA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings are recorded by a stenographer and become part of the formal record of the Commission proceeding on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in the EA.
