

the **ADDRESSES** section below, no later than August 30, 2025.

ADDRESSES: The public hearing details will be published in the ETV News prior to the hearing and on e-Planning BLM website at <https://eplanning.blm.gov/eplanning-ui/project/2015277/510>. The EIS and documents pertinent to this proposal are also available for review at the same website.

Written comments on the FMV and MER must be received by Erika Tobin at email: etobin@blm.gov or Bureau of Land Management, Attn: Erika Tobin, Skyline FMV and MER, 125 South 600 West, Price, UT 84501.

FOR FURTHER INFORMATION CONTACT: Erika Tobin, telephone (435) 636-3605; or by email etobin@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Tobin. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The lands included in the tract are located in Emery County, Utah, on lands managed by the Manti-La Sal National Forest, and the coal is managed by BLM. The tract is described as follows: Salt Lake Meridian, Utah, T. 14 S., R. 16 E., sec. 10, W1/2SE1/4 and SE1/4SE1/4.

The area described contains 120 acres, according to the official plat of the survey on file with the BLM.

Canyon Fuel Company, LLC, submitted the Little Eccles LBA to the BLM Utah State Office on July 10, 2019. The Flat Canyon lease modification application (LMA) was also submitted on June 10, 2019, and was subsequently revised on July 5, 2019. To comply with the National Environmental Policy Act, Federal Land Policy and Management Act, and regulations at 43 CFR 3425.3 and 43 CFR 3432.3(c), an EIS was completed to address both the LBA and LMA. The complete EIS is available on e-Planning at the location in the **ADDRESSES** section.

Additionally, the BLM and U.S. Department of Agriculture Forest Service, as Federal defendants in *WildEarth Guardians v. Haaland* (2:16-cv-00168), have a responsibility under the March 2023 settlement agreement that resolved the litigation to complete an EIS that at a minimum analyzes effects of climate change attributable to and air-quality effects resulting from these lease proposals when deciding whether or not to approve the Flat

Canyon LMA and to issue a new Federal coal lease in the Little Eccles LBA.

The Little Eccles LBA tract has one minable coal bed called the Lower O'Connor A seam ranging from 10.5–15.7 feet in thickness. The LBA contains approximately 2.1 million tons of high-volatile C bituminous coal in-place and an estimated 858,000 tons recoverable coal reserves. The coal quality on an “as received” basis is as follows: 12,519 BTU/lb, 5.98 percent Moisture, 7.01 percent Ash, 42.70 percent Volatile Matter, 44.31 percent Fixed Carbon, and 0.52 percent Sulfur. The BLM may revise this information based on additional information and public comments received.

Public Involvement Process

At the public hearing for the Little Eccles LBA, the BLM will make every effort to accommodate all speakers who register, although preference will be given to participants from the local area. Each commenter will have 3 minutes to provide oral testimony. Written statements and supporting information submitted during the comment period for the LBA will be considered with the same weight as oral comments and supporting information presented at the public hearing.

Proprietary data must be marked “CONFIDENTIAL” and shall be treated in accordance with the laws and regulations governing confidentiality of such information.

A copy of the FMV and MER comments, except those portions marked as “CONFIDENTIAL” by the author and meeting one of the exemptions in the Freedom of Information Act, will be available for public review upon request at the Price Field Office.

Comments on the Little Eccles LBA, FMV, and MER may include, but need not be limited to, the following topics:

1. The quality of the coal resource;
2. The mining method or methods which would achieve MER of the coal, including specifications of seams to be mined and the most desirable timing and rate of production, restriction of mining, and the inclusion of the tract in an existing or proposed mining operation;
3. Whether this tract is likely to be mined as part of an existing or a proposed mine and evaluated on a realistic incremental basis, in relation to the mine which has the greatest value;
4. Whether the tract should be evaluated as part of an existing mine or as a portion of a new potential mine;
5. Restrictions to mining that may affect coal recovery;

6. The price the mined coal would bring when sold;

7. Costs, including mining and reclamation, and the anticipated timing of production;

8. The percentage rate at which anticipated income streams should be discounted, either with inflation or in the absence of inflation, in which case the anticipated rate of inflation should be given;

9. Depreciation, depletion, amortization and other tax accounting factors;

10. Documented information on the terms and conditions of recent and similar coal land transactions in the lease sale area;

11. The value of any privately held mineral or surface estate in the lease sale area; and

12. Any potential or known competitive interest in the lease sale area.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us to withhold your personal identifying information from public review, we cannot guarantee we will be able to do so.

(Authority: 43 CFR 3422.1, 3425.3, and 3425.4.)

Gerald Davis,

Utah State Director, Acting.

BILLING CODE 4331-25-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[OMB Control Number 1010-NEW; Docket ID: BOEM-2025-0007]

Agency Information Collection Activities; United States West Coast Port Infrastructure Survey

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) is proposing a new information collection request (ICR).

DATES: Comments must be received by BOEM no later than October 10, 2025.

ADDRESSES: Send written comments on this ICR by mail to the BOEM Information Collection Clearance

Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference Office of Management and Budget (OMB) control number 1010–NEW in the subject line of your comments. You may comment on the ICR and view related documents by searching for the docket number “BOEM–2025–0007” at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Anna Atkinson by email at anna.atkinson@boem.gov, or by telephone at 703–787–1025. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside of the United States should use the relay services offered within their country to make international calls to the point of contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on the proposed ICR described below. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly

available at any time. Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). Your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior (DOI)'s FOIA implementing regulations (43 CFR part 2) and applicable laws.

In order for BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in the submittal of your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. Note that BOEM will make available for public inspection, in their entirety, all comments submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses.

BOEM protects proprietary information in accordance with FOIA, DOI's implementing regulations (43 CFR part 2), and 30 CFR 580.70, promulgated pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1352(c)).

Title of Collection: “United States West Coast Port Infrastructure Survey”

Abstract: BOEM proposes to gather information about the use of U.S. West Coast port infrastructure and how offshore energy activities, including decommissioning of oil and gas platforms, may affect port-based industries, especially those related to commercial and recreational fishing. The data gathered will be synthesized with other information to produce a final report as well as summary of port profiles that will inform BOEM planning and decision-making. The final report and port profiles will help ensure that future activities related to offshore energy can avoid, minimize, or offset potential space-use conflicts and enhance space-use synergies among port-based industries (especially commercial fishing) when interacting with the offshore energy industry.

BOEM seeks OMB approval for a set of standardized questions for stakeholders that will document existing port infrastructure, services, and their uses so future activities related to offshore energy, including decommissioning of oil and gas

platforms, can avoid, minimize, or offset potential conflicts and enhance beneficial opportunities among port-based industries. The insights gained from this feedback are critical for BOEM's planning, environmental reviews, Coastal Zone Management Act determinations, local harbor planning, and inter-industry negotiations.

The survey consists of approximately 30 questions asking about topics that include availability of port infrastructure and fishery-related facilities; historical and projected facility use; economic and cultural benefits of port industries and presence; level of concern about potential impacts of offshore energy, including decommissioning of oil and gas platforms, on port users; the importance of port infrastructure to local Tribes; and further comments and suggestions. The survey would be available in an online format or in a printed format that would be distributed to potential respondents. Respondents will also have the option to respond to the survey through an onsite interview. Interviews will be for the purpose of answering and clarifying the survey questions only; no new questions will be introduced.

OMB Control Number: 1010–NEW.

Type of Review: New.

Respondents/Affected Public: Port authority staff and port commissioners; representatives of commercial and recreational fishing associations; State commissioners with responsibilities related to fish and wildlife and/or port planning and development; commercial fish processing facility managers; local business owners; Tribal representatives who use U.S. West Coast ports for fishing activities; and individuals with expertise in State consistency reviews. Respondents will be selected from the States of Washington, Oregon, and California and from 20 ports on the West Coast chosen using statistical criteria.

Total Estimated Number of Annual Responses: 432.

Estimated Completion Time per Response: 45 minutes for the online survey; 1 hour for an in-person interview.

Total Estimated Number of Annual Burden Hours: 432 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: One time.

Total Estimated Annual Non-hour Burden Cost: None.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Karen Thundiyl,

Director, Office of Regulatory Affairs, Bureau of Ocean Energy Management.

[FR Doc. 2025–15203 Filed 8–8–25; 8:45 am]

BILLING CODE 4340–98–P

DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE–2025–0102; EEEE500000–256E1700D2–ET1SF0000.EAQ000; OMB Control Number 1014–0012]

Agency Information Collection Activities; Open and Nondiscriminatory Access to Oil and Gas Pipelines Under the OCS Lands Act

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and Environmental Enforcement (BSEE) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before October 10, 2025.

ADDRESSES: Send your comments on this information collection request (ICR) by either of the following methods listed below:

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE–2025–0102 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.
- Email Kelly.Odom@bsee.gov, fax (703) 787–1775 or mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Kelly Odom; 45600 Woodland Road, Sterling, VA 20166. Please reference OMB Control Number 1014–0012 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT:

Kelly Odom by email at Kelly.Odom@bsee.gov or by telephone at (703) 787–1775. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services.

Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: This authority and responsibility are among those

delegated to BSEE. The regulations at 30 CFR part 291 concern open and nondiscriminatory access to pipelines and are the subject of this collection. This request also covers any related Notices to Lessees and Operators (NTLs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations.

The BSEE uses the submitted information to initiate a more detailed review into the specific circumstances associated with a complainant's allegation of denial of access or discriminatory access to pipelines on the U.S. Outer Continental Shelf (OCS). The complaint information will be provided to the alleged offending party. Alternative dispute resolution may be used either before or after a complaint has been filed to informally resolve the dispute. The BSEE may request additional information upon completion of the initial review.

Title of Collection: 30 CFR part 291, “Open and Nondiscriminatory Access to Oil and Gas Pipelines Under the Outer Continental Shelf Lands Act.”

OMB Control Number: 1014–0012.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Potential respondents include Federal OCS oil, gas, and sulfur lessees and/or operators and holders of pipeline rights-of-way.

Total Estimated Number of Annual Respondents: Currently there are approximately 550 Federal OCS oil, gas, and sulfur lessees and holders of pipeline rights-of-way. Not all the potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 2.

Estimated Completion Time per Response: Varies from 1 hour to 50 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 51.

Respondent's Obligation: Responses are voluntary but are required to obtain or retain benefits.

Frequency of Collection: Submissions are generally on occasion.

Total Estimated Annual Nonhour Burden Cost: \$7,500.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
