DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Alaska Mariculture Economic Benchmark Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on February 21, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce

Title: Alaska Mariculture Economic Benchmark Survey

OMB Control Number: 0648-XXXX.

Form Number(s): None.

Type of Request: Regular submission [new information collection].

Number of Respondents: 80.

Average Hours per Response: 30 minutes.

Total Annual Burden Hours: 60 hours.

Needs and Uses: This is a request for a new collection of information. Alaska was recently named an Aquaculture Opportunity Area (AOA) under NOAA

Fisheries to determine geographic areas that are environmentally, socially, and economically suitable to support commercial aquaculture operations. The purpose of this data collection is to gather economic data from current growers that hold an Aquatic Farming permit under the Alaska Department of Fish & Game to establish a benchmark economic report that presents economic measures (profitability, breakeven price, etc.) and operations (average stocking density, kelp line depth and separation, etc.) spatially.

The data collected from this survey will be used by NOAA economists to generate a benchmark report that states spatial economic information, internal reports on the spatial economic suitability of an Alaskan mariculture operation, and external publications on the financial and environmental risks. These reports will be published on NOAA's website and be publicly accessible for stakeholders, researchers, and other members of the public.

Stakeholders (current and prospective growers) are requesting economic information to help secure small business loans to establish new growing operations and expand current production and describe the economics of opening and operating a mariculture farm in Alaska. Additionally, the economic data provided from this collection will help determine the spatial economic suitability requested from the AOA project. NOAA will use the information provided in the survey to generate a bio economic model that can be simulated under various financial and environmental scenarios. Examples of financial and environmental scenarios include the impact to profitability from subsidies for reductions in seed costs, price floors, and reduced transportation costs from a new production facility and impact to growth and mortality rates from increasing surface water temperatures, dissolved oxygen (DO), and other water parameters and other environmental events such as harmful algae blooms (HAB) or severe storms.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; Farms.

Frequency: Annually.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the

following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Generic Clearance for the Collection of Test and Pilot Data

AGENCY: Corporation for National and Community Service.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Corporation for National and Community Service, operating as AmeriCorps, has submitted a public information collection request (ICR) entitled Generic Clearance for the Collection of Pilot and Test Data for review and approval in accordance with the Paperwork Reduction Act.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by June 17, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Copies of this ICR, with applicable supporting documentation, may be obtained by calling Amy Borgstrom at 202-422-2781 or by email to aborgstrom@americorps.gov.

SUPPLEMENTARY INFORMATION: The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of AmeriCorps, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions;

- Propose ways to enhance the quality, utility, and clarity of the information to be collected; and
- Propose ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on February, 28, 2024 at 89 FR 14638. This comment period ended April 28, 2024. No comments were received.

Title of Collection: Generic Clearance for the Collection of Pilot and Test Data.

OMB Control Number: 3045-0163.

Type of Review: Renewal.

Respondents/Affected Public:

Individuals and Households.

Total Estimated Number of Annual Responses: 700.

Total Estimated Number of Annual Burden Hours: 350.

Abstract: AmeriCorps seeks to renew the current information collection. The information collection will enable pilot testing of survey instruments in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By pilot testing we mean information that provides useful insights on how respondents interact with the instrument but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations regarding prospective studies. It will also allow feedback to contribute directly to the improvement of research program management.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
