Census Bureau

Current Population Survey (CPS) Fertility Supplement

ACTION: Proposed collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other federal agencies to take this opportunity to comment on proposed or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before January 14, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at mclayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Karen Woods, Census Bureau, FOB 3, Room 3340, Washington, DC 20233–8400, (301) 457–3806.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request clearance for the collection of data concerning the Fertility Supplement to be conducted in conjunction with the June 2002 CPS. The Census Bureau sponsors the supplement questions, which were previously collected in June 2000, and have been asked periodically since 1971.

This survey provides information used mainly by government and private analysts to project future population growth, to analyze child spacing, and to aid policymakers in their decisions affected by changes in family size and composition. Past studies have discovered noticeable changes in the patterns of fertility rates and the timing of the first birth. Potential needs for government assistance, such as aid to families with dependent children, child care, and maternal health care for single parent households, can be estimated using CPS characteristics matched with fertility data.

II. Method of Collection

The fertility information will be collected by both personal visit and telephone interviews in conjunction with the regular June CPS interviewing. All interviews are conducted using computer-assisted interviewing.

III. Data

OMB Number: 0607–0610.

Form Number: There are no forms. We conduct all interviewing on computers.

Type of Review: Regular.

Affected Public: Individuals or Households.

Estimated Number of Respondents: 30,000.

Estimated Time Per Response: 1 minute.

Estimated Total Annual Burden Hours: 500.

Estimated Total Annual Cost: There are no costs to the respondents other than their time to answer the CPS questions.

Respondents' Obligation: Voluntary.

Legal Authority: Title 13, U.S.C., section 182; and Title 29, U.S.C., sections 1–9.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 8, 2001.

Madeleine Clayton,

Departmental Paperwork Clearance Officer, Office of the Chief Information Officer.

Foreign-Trade Zones Board

[Docket 45–2001]

Foreign-Trade Zone 42—Orlando, FL; Application for Subzone Status, Mitsubishi Power Systems, Inc., Plant, (Power Generation Turbine Components) Orlando, FL

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Greater Orlando Aviation Authority, grantee of FTZ 42, requesting special-purpose subzone status for the power generation turbine components

manufacturing plant of Mitsubishi Power Systems, Inc. (MPS) (a subsidiary of Mitsubishi Heavy Industries, Ltd., of Japan), located in Orlando, Florida. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 6, 2001.

The MPS plant (15 acres/109,000 sq.ft.) is located within the Orlando Central Park at 2287 Premier Row, Orlando (Orange County), Florida. The facility (350 employees) is used to contract repair and manufacture combustion baskets, transition pieces, turbine blades and turbine vanes used as components for simple-cycle and advanced combined-cycle large power generation turbines (HTSUS# 8411.99), and to distribute similar imported components for export and the U.S. market. The production process involves inspection, welding, ceramic coating and repair. In addition to the component production, the application indicates that complete rotor assemblies would be repaired and/or manufactured at the facility in the future. The components are manufactured from cold-formed nickel alloy plate (HTSUS 7506.20; duty rate—3.0%) and cobalt alloy (8105.90; 3.7%) sourced from abroad. Domestic purchases of these alloys are planned.

FTZ procedures would exempt MPS from Customs duty payments on the foreign materials used in export production. On its domestic sales and exports to NAFTA markets, the company would be able to choose the duty rate that applies to finished combustion baskets, transition pieces, turbine blades, turbine vanes and rotor assemblies (2.4%) for the foreign-sourced nickel and cobalt alloys noted above. MPS would be able to defer Customs duty payments on the foreign-origin finished power generation turbine components that would be admitted to the proposed subzone for U.S. distribution. Duties would be deferred or reduced on foreign production equipment admitted to the proposed subzone until which time it becomes operational. The application indicates that subzone status would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's

Executive Secretary at the following addresses:

1. *Submissions via Express/Package Delivery Services:* Foreign-Trade Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th Street, NW, Washington, DC 20005; or,

2. *Submissions via the U.S. Postal Service:* Foreign-Trade Zones Board, U.S. Department of Commerce, FCB—4100W, 1401 Constitution Ave., NW, Washington, DC 20230.

The closing period for their receipt is January 14, 2002. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 29, 2002).

A copy of the application will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address No.1 listed above and at the U.S. Department of Commerce Export Assistance Center, Suite 1270, 200 E. Robinson Street, Orlando, FL 32801.

Dated: November 6, 2001.

Dennis Puccinelli,

Executive Secretary.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration, Tourism Industries office "Survey of International Air Travelers" is the only source for estimating international travel and passenger fare exports and imports for this country. This program also supports the U.S. Department of Commerce, Bureau of Economic Analysis mandate to collect and report this type of information which is used to calculate GDP for the United States. This project also serves as the core data source for Tourism Industries. Numerous reports and analyses are developed to assist businesses in increasing U.S. exports in international travel. An economic impact of international travel on state economies, visitation estimates, traveler profiles, presentations and reports are generated by Tourism Industries to help the federal government agencies and the travel industry better understand the international market. It is also a service that the U.S. Department of Commerce provides to travel industry businesses seeking to increase international travel and passenger fare exports for the country, as well as U.S. outbound travel. It provides the only comparable estimates of nonresident visitation to the states and cities within the U.S., as well as U.S. resident travel abroad. Traveler characteristics data are also collected to help travel related businesses better understand the international travelers to and from the U.S. so they can develop targeted marketing and other planning related materials.

II. Method of Collection

The collection is on U.S. and foreign flag airlines who voluntarily agree to allow us to survey their passengers on departing flights from the U.S. Additional surveys are also collected at U.S. departure airports and selected U.S. sites as cooperation is obtained from the travel industry.
