DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7077-N-25]

Privacy Act of 1974; System of Records

AGENCY: Office of Policy Development and Research, HUD.

ACTION: Notice of a rescindment of a systems of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, the Department of the Housing and Urban Development (HUD), the Office of Policy

Development and Research, is issuing a public notice of its intent to rescind the Counseling Options Data System (CODS) because the demonstration and evaluation contract of the data system has ended.

DATES: Comments will be accepted on or before December 20, 2023. This proposed action will be effective immediately upon publication.

ADDRESSES: You may submit comments, identified by one of the following methods:

Federal e-Rulemaking Portal: <http://www.regulations.gov>. Follow the instructions provided on that site to submit comments electronically.

Fax: 202-619-8365.

Email: privacy@hud.gov.

Mail: Attention: Privacy Office; LaDonne White, Chief Privacy Officer; The Executive Secretariat; 451 Seventh Street SW, Room 10139; Washington, DC 20410-0001.

Instructions: All submissions received must include the agency name and docket number for this rulemaking. All comments received will be posted without change to <http://www.regulations.gov> including any personal information provided.

Docket: For access to the docket to read background documents or comments received go to <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION: The Counseling Options Data System (CODS) is being terminated because the demonstration and data evaluation contract that the data system was supporting have ended. CODS was a contractor-owned and contract-operated system. The system was originally called the Random Assignment and Service Tracking (RAST) system, but the name changed to the Counseling Options Data System (CODS) during the process of obtaining an authorization to operate (ATO) at the FISMA moderate level. Abt Associates, the contractor, destroyed all record files in accordance with National Institute of Standards and Technology (NIST) Special Publications 800-88. Abt Associates transferred de-

identified baseline, interim and long term follow up survey data and Federal Housing Administration (FHA) data on study participants that purchased homes with FHA loans to HUD on 9/27/2023. The de-identified data resides on PD&R's secure server and only contains the study participant's study ID, which has no personally identifiable information (PII).

SYSTEM NAME AND NUMBER:

Counseling Options Data system (CODS).

HISTORY:

Random Assignment and Service Tracking (RAST): 78 FR 2418 (January 11, 2013).

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Evaluation of Green and Resilient Retrofit Program.

OMB Approval Number: 2528–NEW.

Type of Request: New Collection.

Form Number: N/A.

Description of the need for the information and proposed use: The Office of Policy Development and Research (PD&R), at the U.S. Department of Housing and Urban Development (HUD), is proposing the collection of information to support an evaluation of the Green and Resilient Retrofit Program (GRRP). GRRP is a newly funded program through Section 30002 of the Inflation Reduction Act of 2022 (H.R. 5376) titled “Improving Energy Efficiency or Water Efficiency or Climate Resilience of Affordable Housing.” HUD is offering GRRP funding in the form of grants or loans through three award cohorts designed to meet the needs of properties in different situations, implemented through three parallel Notices of Funding Opportunities (NOFOs). These award cohorts are the Elements Award cohort, the Leading Edge Award cohort, and the Comprehensive Award cohort. Under all three award cohorts, owners of eligible HUD-assisted multifamily properties will receive funding in the form of grants or loans to undertake retrofits, enhancements, and upgrades to improve energy and water efficiency, indoor air

quality, and climate hazard resilience; to reduce emissions; to use renewable energy; and/or to use low Embodied Carbon materials.

The “Elements” NOFO provides modest funding to owners to add proven and meaningful climate resilience, energy efficiency, electrification, and renewable energy measures to the construction scopes of in-progress recapitalization transactions. The “Leading Edge” NOFO provides funding for retrofit activities to achieve ambitious outcomes, including net zero, renewable energy generation, use of building materials with lower Embodied Carbon, and climate resilience investments. The “Comprehensive” NOFO will provide funding to initiate recapitalization investments designed from inception around both proven and innovative measures, including ambitious green building standards or measures, renewable energy generation, use of building materials with lower Embodied Carbon, and climate resilience investments.

The Evaluation of Green and Resilient Retrofit Program (GRRP Evaluation) will be implemented in phases. Under Phase 1, HUD plans to collect survey and interview data related to the application process, the scoping and design phase of GRRP, and the post-construction period.

(1) *GRRP Application Survey:* The application survey and interview will provide data necessary to assess the success of the application process, which is influenced by property owners’ perceptions of the design of the application and the program.

(2) *GRRP Scoping and Design Survey:* The survey and interview related to the scoping and design phase of GRRP will provide data necessary to evaluate the process of implementing the program, including what went well and what barriers were encountered. It will cover issues related to activities such as developing the transaction plan and closing package, and designing the retrofit.

(3) *GRRP Post-Construction Survey:* The post-construction survey and interview will provide data necessary to evaluate how well the program worked in terms of the perceived costs and benefits to property owners, including questions related to construction, such as whether property owners encountered barriers with construction.

This **Federal Register** Notice provides an opportunity to comment on the information collection for the Evaluation of the Green and Resilient Retrofit Program (GRRP Evaluation).

Respondents: Owners of HUD-assisted multifamily properties eligible for GRRP. Awardees and non-awardee

applicants will be sampled using a stratified design with stratification on cohort, region, and the size of the owner (e.g., small owners of properties vs. large corporate property owners). Eligible non-applicants will be chosen using a stratified design with stratification on region and size of the owner from Office of Recapitalization’s database of eligible properties minus applicants. Interviews will be conducted with a subset of property owners; this sample will be chosen based on a combination of stratified sampling (using the same approach as sampling the awardees for the survey; approximately 38% of interview sample) and purposive sampling (approximately 62% of interview sample) stemming from inclusion in case studies and/or survey responses benefitting from in-depth follow-up. We will provide accommodations to the greatest extent possible. Property owners with hearing impairments can be accommodated through a web-based version of the data collection, and visually impaired property owners can be accommodated through a telephone-based version of the data collection. We will use translation services as needed, but we do not expect language barriers to be a significant concern because property owners are already required to submit their information to HUD in English.

Estimated Number of Respondents: This information collection will affect a maximum of 900 respondents, including approximately 450 grantees, 225 applicant owners who did not receive grants or loans (Application Survey only), and 225 eligible non-applicants (Application Survey only). Interviews will be collected from approximately 40 grantees across all three cohorts.

Estimated Time per Responses: The expected time per response varies by instrument. Reading the Outreach Materials is estimated to take a maximum of 0.1 hours. For the Application Survey, expected time per response is a maximum of 0.5 hours. Expected time per response for the Scoping and Design and Post-Construction surveys is a maximum of 0.75 hours each. Expected time per interview is a maximum of 1 hour.

Frequency of Response:

- 1 time for non-applicants and applicant non-awardees (only surveyed in the Application Survey);
- 3–6 times for awardees (surveyed in the Application Survey, Scoping and Design Survey, and Post-Construction Survey; subset also interviewed in depth regarding Application, Scoping and Design, and Post-Construction).

Average Hours per Response: 0.5 hours/application survey, 0.75 hours/scoping and design survey, 0.75 hours/post-construction survey, and 1 hour/interview.

Estimated Total Annual Cost: The total estimated cost for the proposed data collection is \$108,082.

The Table below provides the estimated burden hours for the planned surveys and interviews. These estimates assume the maximum targeted number of study participants and are calculated as the time needed to complete individual surveys and interviews. To estimate the hourly cost per respondent, HUD used the average hourly

compensation (wages and benefits) of private workers who are in management, business, and financial occupations, according to the U.S. Bureau of Labor Statistics' Employer Costs for Employee Compensation Survey from June 2023 (<https://www.bls.gov/news.release/pdf/ecec.pdf>).

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Outreach Materials to Sample	900	1	1	0.1	90	\$80.96	\$7,286
GRRP Application Survey	900	1	1	0.5	450	80.96	36,432
GRRP Scoping and Design Survey	450	1	1	0.75	337.5	80.96	27,324
GRRP Post-Construction Survey	450	1	1	0.75	337.5	80.96	27,324
GRRP Application Interview	40	1	1	1.0	40	80.96	3,238
GRRP Scoping and Design Interview	40	1	1	1.0	40	80.96	3,238
GRRP Post-Construction Interview	40	1	1	1.0	40	80.96	3,238
Total					1335		108,082

Respondent's Obligation:
Participation is voluntary.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected, and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comments in response to these questions.
