

Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

2000-03-05 Boeing: Amendment 39-11562. Docket 96-NM-226-AD.

Applicability: Model 737-200 series airplanes equipped with SAF-T-GLO Aerospace Limited emergency floor path lighting systems installed in accordance with Supplemental Type Certificate (STC) ST00969AT, certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent inadequate lighting and cueing of the emergency floor path lighting system, which could delay or impede the flight crew and passengers when exiting the airplane during an emergency, accomplish the following:

(a) Within 6 months after the effective date of this AD, remove the existing

photoluminescent emergency floor path lighting system from the airplane. Replace it with an emergency floor path lighting system in accordance with Supplemental Type Certificate ST01829AT, dated February 11, 1999, or an FAA-approved emergency floor path lighting system that is installed in accordance with a method approved by the Manager, Atlanta Aircraft Certification Office (ACO), FAA, Small Airplane Directorate.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Atlanta ACO. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Atlanta ACO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Atlanta ACO.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) This amendment becomes effective on March 16, 2000.

Issued in Renton, Washington, on February 4, 2000.

Donald L. Riggan,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

14 CFR Part 71

[Airspace Docket No. 99-AWA-12]

RIN 2120-AA66

Revision to the Legal Description of the Burlington International Class C Airspace Area; VT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises the legal description of the Burlington, VT, Class C airspace area by changing the operating hours to be consistent with the current operational requirements. Specifically, the Class C airspace area will be designated effective during the specific days and hours of operation of the Burlington Tower and Approach Control facility as established in advance by a Notice to Airmen (NOTAM). The effective dates and times thereafter will be continuously published in the Airport/Facility Directory. This action will not change

the actual dimensions, configuration, or operating requirements of the Burlington Class C airspace area.

EFFECTIVE DATE: February 24, 2000.

FOR FURTHER INFORMATION CONTACT:

Terry Brown, Airspace and Rules Division, ATA-400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

Background

The Burlington Airport Traffic Control Tower is reducing its hours of operation. The Burlington Class C airspace area remains an essential safety measure in support of the ongoing airport operation requirements.

On November 15, 1999, the FAA published an NPRM (64 FR 61803) that proposed to revise the legal description of the Burlington, VT, Class C airspace area by changing the operating hours to be consistent with the current operational requirements. Interested parties were invited to participate in this rulemaking proceeding by submitting comments on the proposal to the FAA. No comments objecting to the proposal were received. However, one error was found in the coordinates of the legal description in the notice for the Burlington International Airport, VT. Except for the change in the coordinates, this amendment is the same as that proposed in the notice.

The Rule

This amendment to part 71 of The Federal Aviation Regulations (14 CFR part 71) revises the legal description of the Burlington Class C airspace area located at Burlington, VT. The legal description will use the operating hours for the Class C airspace area which are consistent with the current requirements. The Class C airspace area is designated effective during the specific days and hours of operation of the Burlington facility as established in advance by a NOTAM. This action is a technical amendment to the legal description and will not change the actual dimensions, configuration, or operating requirements of the Burlington Class C airspace area.

The coordinates for this airspace docket are based on North American Datum 83. Class C airspace areas are published in paragraph 4000 of FAA Order 7400.9G, dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class C airspace area listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this Regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "Significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9G, Airspace Designations and Reporting Points, dated September 1, 1999, and effective September 16, 1999, is amended as follows:

Paragraph 4000-Subpart C—Class C Airspace

* * * * *

Burlington International Airport, VT [Revised]

Burlington International Airport, VT (lat. 44°28'23' N., long. 73°09'01' W.)

That airspace extending upward from the surface to and including 4,400 feet MSL within a 5-mile radius of the Burlington International Airport, and that airspace extending upward from 2,200 feet MSL to 4,400 feet MSL within a 10-mile radius of Burlington International Airport from the 360° bearing from the airport clockwise to the

180° bearing from the airport, excluding the airspace within Restricted Area R-6501; and that airspace extending upward from 1,500 feet MSL to 4,400 feet MSL within a 10-mile radius of the airport from the 180° bearing from the airport clockwise to the 360° bearing from the airport. This Class C airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

30 CFR Part 250

RIN 1010-AC32

Postlease Operations Safety

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Corrections to Final Regulations.

SUMMARY: This document contains corrections to the final rule titled "Postlease Operations Safety" that was published Tuesday, December 28, 1999 (64 FR 72756). We are correcting a section title and adding a word in the section that was inadvertently omitted.

EFFECTIVE DATE: January 27, 2000.

FOR FURTHER INFORMATION CONTACT: Kumkum Ray, (703) 787-1600.

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of these corrections supersede 30 CFR 250, subpart A, General, regulations on the effective date and affect all operators and lessees on the Outer Continental Shelf.

With respect to the corrections, the title of § 250.142 is inaccurate and the word "District" was omitted inadvertently in the section.

Need for Correction

As published, the final regulations contain errors which may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication on December 28, 1999, of the final regulations, which were the subject of FR Doc. 99-31869, is corrected as follows:

§ 250.142 [Corrected]

On page 72783, in the first column, the title of and the language in § 250.142 are corrected to read :

§ 250.142 How do I receive approval for departures?

We may approve departures to the operating requirements. You may apply for a departure by writing to the District or Regional Supervisor.

Dated: January 31, 2000.

E.P. Danenberger,

Chief, Engineering and Operations Division.
