

questionnaire, the Department selected one additional mandatory respondent in the administrative review for the PRC. See the memorandum from Erin Begnal to James C. Doyle, dated July 26, 2006, entitled, "Antidumping Duty Administrative Review of Certain Frozen Warmwater Shrimp from the People's Republic of China: Selection of Additional Mandatory Respondent."

On July 27, 2006, the Department rescinded the administrative review for certain Vietnamese companies due to the withdrawal of review requests. See *Certain Frozen Warmwater Shrimp from the Socialist Republic of Vietnam: Partial Rescission of the First Administrative Review*, 71 FR 42628 (July 27, 2006). On July 31, 2006, the Department rescinded the administrative review for certain PRC companies due to the withdrawal of review requests. See *Certain Frozen Warmwater Shrimp from the People's Republic of China: Partial Rescission of the First Administrative Review*, 71 FR 43107 (July 31, 2006).

Extension of Time Limit of Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination in an administrative review within 245 days after the last day of the anniversary month of an order or finding for which a review is requested. Consistent with section 751(a)(3)(A) of the Act, the Department may extend the 245-day period to 365 days if it is not practicable to complete the review within a 245-day period. The deadline for the preliminary results of these reviews is currently October 31, 2006.

The Department determines that completion of the preliminary results of these administrative reviews within the statutory time period is not practicable. Due to the additional time needed for respondent selection, the Department was not able to issue its initial antidumping duty questionnaires to the selected companies until June 20, 2006 in the PRC review, July 11, 2006, in the Brazilian, Ecuadorian, Indian, and Thai reviews, and July 12, 2006 for the Vietnamese review. The Department thus requires additional time to conduct its analysis for each company in these administrative and new shipper reviews.

Therefore, given the additional time needed to conduct complete analyses for these administrative and new shipper reviews, in accordance with section 751(a)(3)(A) the Act, we are extending the time period for issuing the preliminary results of review by 120 days, until February 28, 2007. The final

results continue to be due 120 days after the publication of the preliminary results. We are also extending the time limit for parties to submit new factual information, including surrogate value information to be considered for the preliminary results, until November 30, 2006, for the PRC and Vietnamese reviews. Parties should note that the due date for comments regarding surrogate country selection remains September 1, 2006, for Vietnam, and September 7, 2006, for the PRC.

This notice is published pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: August 21, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

International Code Council: The Update Process for the International Codes

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of Code Development Hearings on U.S. Model Codes, 2007 supplement to the 2006 editions.

SUMMARY: The International Code Council (ICC), under whose auspices the International Codes ("I-Codes") are developed, maintains a process for updating these model codes based on receipt of proposals from interested individuals and organizations. The ICC's 14 separately published codes are each comprehensively updated and republished every three years with a supplement released between each edition. The most current versions of the I-Codes are the 2006 editions. The 2007 supplement to the 2006 editions will be released in the Fall of 2007.

The purpose of this notice is to invite public participation in the Code Development Hearings. At this session, all proposed changes submitted for the family of the 2006 I-Codes will be considered by the respective Code Development Committees, with the assembled body of the International Code Council members also afforded the opportunity to vote via an assembly action.

The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of ICC is being undertaken as a public service;

NIST does not necessarily endorse, approve, or recommend any of the codes or standards referenced in the notice.

Session Dates: The Code Development Hearings of the 2006/2007 Code Development Cycle will occur between September 20 and October 1, 2006, at Disney's Coronado Springs Resort, Walt Disney World, Florida.

The agenda for the hearing as well as updates to the schedule are also posted on the ICC Web site at: <http://www.iccsafe.org>.

SUPPLEMENTARY INFORMATION:

Background

The ICC produces a family of Codes and Standards that are comprehensive, coordinated and are widely used across the country in the regulation of the built environment. Local, state and federal agencies use these codes and standards as the basis for developing regulations concerning new and existing construction.

The ICC code development process is initiated when proposals from interested persons—supported by written data, views, or arguments—are solicited, received and then published in the Proposed Changes document. This document is distributed a minimum of 30 days in advance of the Code Development Hearings and serves as the agenda for that session.

At the Code Development Hearing, the ICC Code Development Committee for each code or subject area of the code considers testimony and takes action on each proposal (Approval, Disapproval, or Approval as Modified). At the conclusion of committee action on each proposal, any member of the public assembly may make a motion for a vote by the ICC members in attendance ("assembly action") to consider an action different than the committee action. Successful assembly actions on code changes become part of the record of public comments and are considered at the Final Action Hearing. Following the Code Development Hearing, the Report of the Public Hearing is published, and identifies the disposition of each proposal, the reason for the committee's action and successful assembly actions. Any person may provide additional comment on the committee actions in the public comment period following the first

hearing. These comments are published and distributed in Final Action Agenda which serves as the agenda for the second public hearing in each cycle.

Proposals which are approved by a vote of the Governmental Members of ICC at the Final Action Hearing are incorporated in either the Supplement or Edition, as applicable, with the next 18-month cycle starting with the submittal deadline for proposals. Proponents of proposals will receive a copy of all documents (Proposed Changes, Report of the Public Hearing and Final Action Agenda). Any interested party may also request a copy, free of charge, by downloading the "return coupon" from the ICC Web site at <http://www.iccsafe.org> and forwarding it as directed.

The International Codes consist of the following:

- International Building Code;
- International Code Council Electrical Code Administrative Provisions;
- International Energy Conservation Code;
- International Existing Building Code;
- International Fire Code;
- International Fuel Gas Code;
- International Mechanical Code;
- ICC Performance Code for Buildings and Facilities;
- International Plumbing Code;
- International Private Sewage Disposal Code;
- International Property Maintenance Code;
- International Residential Code;
- International Wildland-Urban Interface Code; and
- International Zoning Code.

Dated: August 18, 2006.
