

access project information directly. The Forest Service is seeking information, comments, and assistance from other agencies, organizations or individuals who may be interested in or affected by the proposed project.

Comments received in response to this notice, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR parts 215 or 217. Additionally, pursuant to 4 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and to be available for public review in February 2002. EPA will publish a notice of availability of the draft EIS in the **Federal Register**. The comment period will be 45 days from the date the EPA publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft EISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this

proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

The final EIS is anticipated to be completed by July, 2002. In the final EIS, the Forest Service is required to respond to substantive comments received during the comment period on the draft EIS. Gregory L. Cox, Mount Adams District Ranger, is the Responsible Official. He will decide, which, if any, of the proposed project alternatives will be implemented. His decision and reasons for the decision will be documented in the Record of Decision, which will be subject to Forest Service Appeal Regulations (36 CFR part 215).

Dated: October 30, 2001.

Claire Lavendel,
Forest Supervisor.

Creatine Monohydrate From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce is currently conducting an administrative review of the antidumping duty order on creatine monohydrate from the People's Republic of China. The period of review is July 30, 1999 through January 31, 2001. This review covers imports of subject merchandise from one producer/exporter.

We have preliminarily determined that sales have been made below normal value. If these preliminary results are adopted in our final results of review, we will instruct the Customs Service to assess antidumping duties based on the difference between the U.S. price and normal value.

We invite interested parties to comment on these preliminary results. We will issue the final results no later than 120 days from the date of publication of this notice.
