X. Incomplete Applications

Incomplete applications will not be accepted. Please ensure that all forms listed in the announcement are completed and submitted in *grants.gov*.

XI. Review and Selection Process

Upon receiving a TTGP application, OIED will determine whether the application is complete and that the proposed project does not duplicate or overlap previous or currently funded OIED tourism projects. Any proposal that is received after the date and time in the **DATES** section of this notice will not be reviewed.

The OIED Review Committee, comprised of OIED staff, staff from other Federal agencies, and subject matter experts, will evaluate the proposals

against the ranking criteria. Proposals will be evaluated using the five ranking criteria listed below, with a maximum achievable total of 100 points.

Final award selections will be approved by the Assistant Secretary—Indian Affairs and the Associate Deputy Secretary, U.S. Department of the Interior. Applicants not selected for an award will be notified in writing.

XII. Evaluation Criteria

Proposals (both feasibility or business plans) will be formally evaluated by an OIED review committee using the five criteria listed below. Each criterion provides a percentage of the total maximum rating of 100 points:

- The Project's Economic Benefits: 50 points;
- Project Deliverables: 20 Points;
- Feasibility Process and Analysis: 10 points;
- Costs of Proposal: 10 points;
- Specificity: 10 points.

The Project's Economic Benefits: 50 Points

The reviewers will determine if the proposal's scope of work clearly states the tourism opportunity to be studied. Factors that the reviewers will consider when allocating points are, but not limited to:

- Does the tourism proposal address what is needed to increase tourism capacity?
- Does the proposal describe the benefits that the tourism project would have if implemented?
- Does the proposal describe how the project will address economic development challenges such as unemployment, workforce development, infrastructure needs, and stimulate economic activity within a Native community?
- Does the proposal address sustainability planning, ensuring that the project has long-term benefits for the community?
- Does the proposal identify any partnerships with non-profit or private sector resources that might increase the potential that the tourism project will succeed?

Project Deliverables: 20 Points

The reviewers will determine if the proposal describes in detail applicable proposed deliverables. For example, a mountain biking tour study would include deliverables such as, but not limited to, site analysis, market demographics, marketing strategies, drive-time market, regional competition, market demands, and a financial model that includes investment and return on investment projections.

Project Tasks and Timeline: 10 Points

The reviewers will determine if a comprehensive timeline has been developed to address tasks that are needed to successfully complete the objectives outlined in the scope of work.

Costs of Proposal/Budget: 10 Points

The reviewers will assess the costs listed in the budget to determine if the overall value of the project is competitively priced and in accordance with the goals stated within the proposal/scope of work.

Specificity: 10 Points

In addition, the reviewers understand that applicants may retain consultant(s) that prepare the Tourism proposal to also conduct the feasibility study if the grant is awarded. This does not prejudice an applicant's chances of being selected as a grantee. However, proposals will be viewed unfavorably if they show little evidence of communication between the consultant(s) and the applicant or scant regard for the applicant community's unique circumstances. Facsimile applications prepared by the same consultant(s) and submitted by multiple applicants will receive scrutiny in this regard.

XIII. Transfer of Funds

OIED's obligation under this solicitation is contingent on receipt of congressionally appropriated funds. No liability on the part of the U.S. Government for any payment may arise until funds are made available to the awarding officer for this grant and until the recipient receives notice of such availability, to be confirmed in writing by the grant officer.

All payments under this agreement will be made by electronic funds transfer through the ASAP. All grant recipients are required to have a current and accurate UEI number to receive funds. All payments will be deposited to the banking information designated by the applicant in the System for Award Management (SAM).

XIV. Reporting Requirements for Award Recipients

The applicant must deliver all products and data required by the signed Grant Agreement for the proposed TTGP feasibility study or business plan project to OIED within 30 days of the end of each reporting period and 120 days after completion of the project. The reporting periods will be established in the terms and conditions of the final award.

OIED requires that deliverable products be provided in digital format

and submitted in the GrantSolutions system. Reports can be provided in either Microsoft Word or Adobe Acrobat PDF format. Spreadsheet data can be provided in Microsoft Excel, Microsoft Access, or Adobe PDF formats. All vector figures should be converted to PDF format. Raster images can be provided in PDF, JPEG, TIFF, or any of the Windows metafile formats. The contract between the grantee and the consultant conducting the TTGP funded feasibility study or business plan must include deliverable products and require that the products be prepared in the format described above.

The contract should include budget amounts for all printed and digital copies to be delivered in accordance with the grant agreement. In addition, the contract must specify that all products generated by a consultant belong to the grantee and cannot be released to the public without the grantee's written approval. Products include, but are not limited to, all reports and technical data obtained, maps, status reports, and the final report.

In addition, this funding opportunity and financial assistance award must adhere to the following provisions.

XV. Conflicts of Interest

Requirements

- Non-Federal entities must avoid prohibited conflicts of interest, including any significant financial interests that could cause a reasonable person to question the recipient's ability to provide impartial, technically sound, and objective performance under or with respect to a Federal financial assistance agreement.

with respect to that recipient or sub-recipient or in development of the requirement leading to the funding announcement.

- No actual or prospective recipient or sub-recipient may solicit, obtain, or use non-public information regarding the evaluation, grant, administration of a grant to that recipient or sub-recipient or the development of a Federal financial assistance opportunity that may be of competitive interest to that recipient or sub-recipient.

Notification

- Non-Federal entities, including applicants for financial assistance awards, must disclose in writing any conflict of interest to the DOI awarding agency or pass-through entity in accordance with 2 CFR 200.112, Conflicts of Interest.

- Recipients must establish internal controls that include, at a minimum, procedures to identify, disclose, and mitigate or eliminate identified conflicts of interest. The recipient is responsible for notifying the Financial Assistance Officer in writing of any conflicts of interest that may arise during the life of the grant, including those that have been reported by sub-recipients.

- Restrictions on Lobbying. Non-Federal entities are strictly prohibited from using funds under this grant or cooperative agreement for lobbying activities and must provide the required certifications and disclosures pursuant to 43 CFR part 18 and 31 U.S.C. 1352.

- Review Procedures. The Financial Assistance Officer will examine each conflict-of-interest disclosure on the basis of its particular facts and the nature of the proposed grant or cooperative agreement, and will determine whether a significant potential conflict exists and, if it does, develop an appropriate means for resolving it.

- Enforcement. Failure to resolve conflicts of interest in a manner that satisfies the Government may be cause for termination of the award. Failure to make the required disclosures may result in any of the remedies described in 2 CFR 200.338, Remedies for Noncompliance, including suspension or debarment (see also 2 CFR part 180).

Data Availability

- Applicability. The Department of the Interior is committed to basing its decisions on the best available science and providing the American people with enough information to thoughtfully and substantively evaluate the data, methodology, and analysis used by the Department to inform its decisions.

- Use of Data. The regulations at 2 CFR 200.315 apply to data produced under a Federal award, including the provision that the Federal Government has the right to obtain, reproduce, publish, or otherwise use the data produced under a Federal award as well as authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes.

- Availability of Data. The recipient shall make the data produced under this award and any subaward(s) available to the Government for public release, consistent with applicable law, to allow meaningful third-party evaluation and reproduction of the following:

- The scientific data relied upon;
- The analysis relied upon; and
- The methodology, including models, used to gather and analyze data.

XVI. Questions and Requests for IED Assistance

Technical consultation from OIED may include clarifying application requirements, confirming whether an applicant previously submitted the same or similar proposal, and registration information for SAM or ASAP. Technical assistance will be provided by the OIED contractor, Tribal Tech. The applicant is solely responsible for the preparation of its grant proposal. All eligible applicants will have access to scheduled training and can request assistance from the pre-application phase through the post-award close-out. It is strongly recommended that any assistance be a consolidation of items based off reasonably completed working drafts. Please complete an in-take form at <https://app.smartsheet.com/b/publish?EQBCT=98a8ecfd0f3d452693e589c6a0a678d8> to request assistance with Tribal Tech.

SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Arizona State Director intends to prepare and consider an RMP amendment with an associated EA for recreational target shooting availability in the SDNM, announces the beginning of the scoping process, and seeks public input on issues, preliminary alternatives, and planning criteria. The RMP amendment would change the existing SDNM Record of Decision and Approved Resource Management Plan (BLM 2012), as amended by the 2018 Record of Decision and Approved Resource Management Plan Amendment.

The planning area is located in Maricopa and Pinal Counties, Arizona and encompasses approximately 486,400 acres of public land.

The scope of this land use planning process does not include addressing the evaluation or designation of Areas of Critical Environmental Concern

(ACECs), and the BLM is not considering ACEC nominations as part of this process.

Purpose and Need

The purpose of the RMP amendment is to establish management guidance specific to recreational target shooting on public land within the SDNM while ensuring the decisions are consistent with the SDNM proclamation and other resource decisions in the 2012 SDNM Record of Decision and Approved Resource Management Plan. The need for this planning effort is to fulfill requirements of an April 2022 settlement agreement that the BLM entered to resolve litigation concerning the agency's 2018 Record of Decision and Approved Resource Management Plan Amendment for the SDNM.

Preliminary Alternatives

The RMP amendment process will consider whether and where recreational target shooting should be allowed in the SDNM, along with any associated management actions. Preliminary alternatives include the No Action alternative, which reflects the 2018 Record of Decision and approved resource management plan amendment that identified approximately 435,700 acres of public land as available for dispersed recreational target shooting along with a monitoring and mitigation framework to avoid or minimize impacts on monument objects while increasing public safety. In accordance with the April 2022 settlement agreement referenced earlier, the BLM will also analyze an alternative under which several areas in the monument would be unavailable to recreational target shooting, including designated wilderness; lands with wilderness characteristics managed to protect those characteristics; an area in the northwest portion of the monument where the Komatke Trail is suspected to exist, along with a 0.5 mile buffer north of the suspected trail, unless, prior to the completion of the land use planning process, additional field work demonstrates the nonexistence of the trail; the area south of Highway 238 from the western edge of the monument boundary to the western edge of the South Maricopa Mountains Wilderness area boundary, and the area south of I-8 and west of the Table Top Wilderness, known as the Vekol Valley; the portion of the monument that used to be part of the Barry M. Goldwater Air Force Range before it was reconveyed to the BLM; and any area where the BLM's suitability analysis identifies monument objects and determines target shooting is inconsistent with the objects' proper
