

applications from the newly recommended guidance, the FLMs have established the following phase-in schedule for implementing the FLAG guidance. The FLMs expect that modeling protocols received after March 1, 2001, for applications to be submitted after April 1, 2001, follow the recommendations and guidance provided in the FLAG report. For complete permit applications and modeling protocols received after April 1, 2001, the FLMs expect the application/protocol to follow the recommendations and guidance provided in the FLAG report. Please note that although the FLAG report contains a wealth of information and will be a very useful tool, it is only guidance, not a rule. To expedite the FLMs' review of permit applications, the FLMs strongly encourage all permit applicants and permitting authorities to prepare and review new source permit applications in accordance with the FLAG guidance. To do otherwise will likely result in delays in the permitting process.

DATES: The FLMs expect new complete permit applications and modeling protocols submitted after April 1, 2001, to follow the recommendations and guidance provided in the FLAG report. This will facilitate the FLMs' review of these applications and protocols.

Changes to the RRA Forms and the Instructions to Those Forms

We made a few editorial changes to the current RRA forms and the instructions to the forms that are

designed to increase the respondents' understanding of the forms, instructions to the forms, and what information is required to be submitted with the forms to the districts. The proposed revisions to the RRA forms will be included starting in the 2002 water year.

Title: Individual Landholder's and Farm Operator's Certification and Reporting Forms for Acreage Limitation, 43 CFR part 426 and 43 CFR part 428.

Abstract: This information collection requires certain landholders (direct or indirect landowners or lessees) and farm operators to complete forms demonstrating their compliance with the acreage limitation provisions of Federal reclamation law. These forms are submitted to districts who use the information to establish each landholder's status with respect to landownership limitations, full-cost pricing thresholds, lease requirements, and other provisions of Federal reclamation law. In addition, forms are submitted by certain farm operators to provide information concerning the services they provide and the nature of their farm operating arrangements. All landholders whose entire westwide landholdings total 40 acres or less are exempt from the requirement to submit RRA forms. Landholders who are "qualified recipients" have RRA forms submittal thresholds of 80 acres or 240 acres depending on the district's RRA forms submittal threshold category where the land is held. Only farm operators who provide multiple services to more than 960 acres held in trusts or by legal entities are required to submit forms.

Frequency: Annually.

Respondents: Landholders (direct or indirect landowners or lessees) and farm operators of certain lands in our projects, whose landholdings exceed specified RRA forms submittal thresholds.

Estimated Total Number of Respondents: 19,202.

Estimated Number of Responses per Respondent: 1.02.
