

and requested that the Order be issued for an additional two-year term. On June 18, 1999, DOE issued FE Order No. EA-145-A granting that request. That two-year authorization expired on June 18, 2001. On June 19, 2001, Powerex filed an application with FE for renewal of this export authority and requested that the Order be issued for an additional two-year term.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Order EA-145.

Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-145 proceeding.
