Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 1.

Average Hours per Response: 2,500 hours to complete each agreement or plan that has the intention of making listing unnecessary; 320 hours to conduct monitoring for successful agreements; and 80 hours to prepare a report for successful agreements.

Needs and Uses: The National Marine Fisheries Service (NMFS), Office of Protected Resources, is sponsoring a request for extension of a currently approved information collection.

Under the Endangered Species Act (ESA), determinations whether to list species as endangered or threatened must be based on the best scientific and commercial data available and after taking into account those efforts, if any, being made by any State or foreign nation (or any of their political subdivisions) to protect the particular species. On March 28, 2003, NMFS and the U.S. Fish and Wildlife Service (the “Services”) announced a final policy on the criteria the Services will use to evaluate certain conservation efforts by States, Tribes, and other non-Federal entities when making listing determinations under the ESA (68 FR 15100). The conservation efforts usually involve the development of a conservation plan or agreement, procedures for monitoring the effectiveness of the plan or agreement, and an annual report.

Affected Public: Business or other for-profit organizations; State, local or tribal governments.

Frequency: One per year.

Respondent's Obligation: Voluntary.

Legal Authority: ESA (16 U.S.C. 1533).
