SUPPLEMENTARY INFORMATION:

I. Background

On July 16, 2001 (66 FR 37098), HUD published a notice announcing its intent to establish a negotiated rulemaking committee for the purpose of negotiating a proposed rule that would revise the allocation formula used under the Indian Housing Block Grant (IHBG) Program. The establishment of the committee will offer Indian tribal governments the opportunity to have input into any changes determined to be necessary to improve the distribution of funds under the IHBG Program. Section IV. of the July 16, 2001 notice (entitled "Tentative Schedule") contained a typographical error regarding the tentative date and locale of the first negotiated rulemaking committee meeting. Specifically, the notice contained a notation to insert the approximate date and location of the meeting, but did not provide the necessary information. The purpose of this document is to make the necessary correction.

At this time, HUD has not yet determined the date or location of the first committee meeting. Once determined, HUD will provide advance notice of the meeting through **Federal Register** notice. All meetings of the negotiated rulemaking committee will be open to the public without advance registration. Public attendance may be limited to the space available. Members of the public will be provided the opportunity to make statements during the meeting, to the extent time permits, and file written statements with the committee for its consideration. In the event that the date and time of these meetings are changed, HUD will advise the public through **Federal Register** notice.

Dated: July 20, 2001.

Paula O. Blunt,

Acting General Deputy Assistant Secretary for Public and Indian Housing.

Clean Air Act Full Approval of Operating Permits Program in Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to fully approve the operating permits program submitted by the State of Alaska. Alaska's operating permits program was submitted in response to the directive in the 1990 Clean Air Act Amendments that permitting authorities develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the permitting authority's jurisdiction. In the Final Rules section of this **Federal Register**, EPA is approving the Alaska operating permits program as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received in writing by August 27, 2001.

ADDRESSES: Written comments should be addressed to Denise Baker, Environmental Protection Specialist (OAQ-107), Office of Air Quality, at the EPA Regional Office listed below. Copies of Alaska's submittal, and other supporting information used in developing this action, are available for inspection during normal business hours at the U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington, 98101. Interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

FOR FURTHER INFORMATION CONTACT: Denise Baker, Office of Air Quality (OAQ-107), EPA, 1200 6th Avenue, Seattle, WA 98101, (206) 553-8087.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final rule which is located in the Rules section of this **Federal Register**.

Dated: July 3, 2001.

Charles Findley,

Acting Regional Administrator, Region 10.

[Docket OR-01-005b; FRL-7018-7]

Finding of Attainment for PM-10; Oakridge, Oregon, PM-10 Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to determine that the Oakridge nonattainment area in Oregon has attained the National Ambient Air Quality Standard (NAAQS) for particulate matter with an aerodynamic diameter of less than, or equal to a nominal ten micrometers (PM-10) as of December 31, 1999.

In the Final Rules section of this **Federal Register**, the EPA is publishing its determination as a direct final rule without prior proposal because the Agency views this as a noncontroversial determination and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated.

If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before August 27, 2001.
