

including an analysis of the incident together with a discussion of the key findings, root and contributing causes, and draft recommendations.

Recommendations are issued by a vote of the Board and address an identified safety deficiency uncovered during the investigation, and specify how to correct the situation. Safety recommendations are the primary tool used by the Board to motivate implementation of safety improvements and prevent future incidents. The CSB uses its unique independent accident investigation perspective to identify trends or issues that might otherwise be overlooked. CSB recommendations may be directed to corporations, trade associations, government entities, safety organizations, labor unions and others.

After the staff presentation, the Board will allow a time for public comment. Following the conclusion of the public comment period, the Board will consider whether to vote to approve the final report and recommendations. When a report and its recommendations are approved, this will begin CSB's process for disseminating the findings and recommendations of the report not only to the recipients of recommendations but also to other public and industry sectors. The CSB believes that this process will ultimately lead to the adoption of recommendations and the growing body of safety knowledge in the industry, which, in turn, should save future lives and property.

All staff presentations are preliminary and are intended solely to allow the Board to consider in a public forum the issues and factors involved in this case. No factual analyses, conclusions or findings should be considered final. Only after the Board has considered the staff presentation and approved the staff report will there be an approved final record of this incident.

The meeting will be open to the public. Please notify CSB if a translator or interpreter is needed, at least 5 business days prior to the public meeting. For more information, please contact the Chemical Safety and Hazard Investigation Board at (202)-261-7600, or visit our Web site at: <http://www.csb.gov>.

General Counsel.

Stainless Steel Sheet and Strip in Coils From the Republic of Korea: Extension of Preliminary Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for preliminary results of Countervailing Duty Administrative Review.

EFFECTIVE DATE: April 10, 2003.

FOR FURTHER INFORMATION CONTACT:

Carrie Farley or Darla Brown, Office of AD/CVD Enforcement VI, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230; telephone: 202-482-0395 or 202-482-2849, respectively.

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order/finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively.

Background

On September 20, 2002, the Department published a notice of initiation of administrative review of the countervailing duty order on stainless steel sheet and strip from the Republic of Korea, covering the period January 1, 2001, through December 31, 2001 (*see* 67 FR 60210). The preliminary results are currently due no later than May 5, 2003.

Extension of Preliminary Results of Review

In this administrative review, we are analyzing whether one of the programs we found countervailable in the original investigation has ended. The termination of this program involves the change of ownership of one of the respondent companies. In addition, several new programs are being examined in this review. As a result of these issues, additional information, and possible verification of this information, is required. Due to these considerations, we determine that it is not practicable to complete the preliminary results of this review within the original time limit. Therefore, the Department is extending the time limits for completion of the preliminary results until no later than September 2, 2003.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: March 27, 2003.

Holly A. Kuga,

Acting Deputy Assistant Secretary for Import Administration.
