Title: NESHAP for Publicly Owned Treatment Works (Renewal).

ICR Numbers: EPA ICR Number 1891.04, OMB Control Number 2060–0428.

ICR Status: This ICR is scheduled to expire on May 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Respondents subject to subpart VVV are owners or operators of waste water treatment processes and operations in the publicly owned treatment works (POTW) source category.

All ''new'' sources must be in compliance with the subpart VVV upon startup or the promulgation date, whichever is later. Owners and operators of affected sources are subject to the requirements of 40 CFR Part 63, Subpart A, the General Provisions, unless the regulation specifies otherwise.

For ''new'' sources constructed or reconstructed after the effective date of the relevant standard, subpart VVV requires that the source submit an application for approval of construction or reconstruction. The application is required to contain information on the air pollution control that will be used for each potential HAP emission point.

The information in the initial notification and the application for construction or reconstruction will enable enforcement personnel to identify the number of sources subject to the standards and to identify those sources that are already in compliance.

Generally, respondents are required to submit one-time reports of (1) start of construction for new facilities and (2) anticipated and actual start-up dates for new facilities. All records are to be maintained by the source for a period of at least five years.

The subpart VVV also requires ''new'' affected sources to submit a notification of compliance status. This notification must be signed by a responsible company official who certifies its accuracy and certifies that the source has complied with the standards. The notification of compliance status must be submitted within 180 days after the compliance date for the affected source.

Emission and control requirements for ''existing'' industrial POTWs are specified by the appropriate NESHAP(s) for the industrial user. In addition, there are no control requirements for ''existing'' non-industrial POTW treatment plants. Therefore, there are no subpart VVV recordkeeping or reporting requirements for ''existing'' sources covered by this ICR.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.15 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of publicly owned treatment works.

Estimated Number of Respondents: 6.

Frequency of Response: Initial, on occasion, semiannual and annual.

Estimated Total Annual Hour Burdens: 14.

Estimated Total Annual Cost: There are no annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 202 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to a correction. It is assumed that there are six (6) affected sources subject to subpart VVV, all of which are ''existing'' sources. Existing sources are only required to submit semiannual reports. The previous ICR also included burden associated with developing a design analysis and recordkeeping associated with equipment inspection and equipment monitoring, which are not required for existing sources.

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–8175–1]

Notice of Meeting of the EPA's Children's Health Protection Advisory Committee (CHPAC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act, Public Law 92–463, notice is hereby given that the next meeting of the Children's Health Protection Advisory Committee (CHPAC) will be held June 20 and 21, 2006 at RESOLVE, Washington, DC. The CHPAC was created to advise the Environmental Protection Agency on science, regulations, and other issues relating to children's environmental health.

DATES: The Voluntary Children's Chemical Evaluation Program (VCCEP) task group will meet Tuesday June 20,

2006. The Plenary session will take place Wednesday June 21, 2006.

ADDRESSES: RESOLVE, 1255 23rd Street, NW., Suite 275, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Contact Carolyn Hubbard, Office of Children's Health Protection, USEPA, MC 1107A, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 564–2189, *hubbard.carolyn@epa.gov*.

SUPPLEMENTARY INFORMATION: The meetings of the CHPAC are open to the public. The VCCEP task group will meet Tuesday June 20, 2006 2 p.m to 5 p.m. The plenary CHPAC will meet on Wednesday June 21, 2006 8:30 a.m. to 5:30 p.m., with a public comment period at 11:45 a.m.

The plenary session will open with introductions and a review of the agenda and objectives for the meeting. Agenda items include a presentation on a best practices document on human subjects testing by EPA's National Exposure Research Lab (NERL), discussion and agreement on the VCCEP comment letter, and a presentation on approaches to protecting children from adverse health effects of chemicals with a focus on body burden, including what changes in public policy might be effective, what the right questions are to ask, and what public and private actions would be most useful. Draft agenda attached.

Access and Accommodations: For information on access or services for individuals with disabilities, please contact Carolyn Hubbard at 202–564–2189 or *hubbard.carolyn@epa.gov*. To request accommodation of a disability, please contact Carolyn Hubbard preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: May 22, 2006.
