amendment of methyl bromide products that include the non-CUE/QPS use on fresh market tomatoes (CA), fresh market peppers (CA), Vidalia onions (GA), and ginger (HI) is December 31, 2012. The effective date of the amendment of methyl bromide products that includes the non-CUE/QPS use for resurfacing/replanting turf and sod on golf courses and athletic/recreational fields is December 31, 2013. The effective date of the amendment of methyl bromide products that include the non-CUE/QPS use on caneberry or tobacco seedling tray uses is December 31, 2014. The effective date of the amendment listed in Table 1B is May 20, 2011. These amendments do not affect post-harvest fumigant uses of methyl bromide. Any distribution, sale, or use of existing stocks of the products identified in Table 1A and Table 1B of Unit II. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

V. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment on February 9, 2011. The comment period closed on March 11, 2011.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the products subject to this order is as follows.

A. For All Products Listed in Table 1A in Unit II

1. All sale or distribution of existing stocks of methyl bromide products that include soil uses other than uses that meet the definition of a "critical use," a "quarantine application," or a "pre-shipment application;" caneberries; fresh market tomatoes grown in California; fresh market peppers grown in California; Vidalia onions grown in Georgia; ginger grown in Hawaii; golf courses and athletic/recreational fields for resurfacing/replanting of turf; and treatment of tobacco seedling trays is prohibited after publication of the cancellation order, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product.

Existing stocks may be used until those stocks are exhausted, provided that such use complies with the EPA-approved label and labeling of the product.

2. Existing stocks of methyl bromide products that include the non-CUE/QPS use on fresh market tomatoes (CA), fresh market peppers (CA), Vidalia onions (GA), and ginger (HI) may be sold and distributed for 120 days after the effective date of cancellation (*i.e.,* 120 days after December 31, 2012); and users may continue to use existing stocks of such products for production of fresh market tomatoes (CA), fresh market peppers (CA), Vidalia onions (GA), and ginger (HI) until those existing stocks are exhausted, provided that no later than August 31, 2012, each registrant has submitted for each of the registrant's products labeled for the fresh market tomatoes (CA), fresh market peppers (CA), Vidalia onions (GA), and ginger (HI) uses, an application for amended registration to revise the approved labeling for those products to delete any language allowing use of the product for any of those uses. For any product that does not meet this condition, EPA may issue an amended order that prohibits sale and distribution and use of existing stocks as of the effective date of cancellation.

3. Existing stocks of methyl bromide products that include the non-CUE/QPS use on golf courses and athletic/recreational fields uses may be sold and distributed for 120 days after the effective date of cancellation (*i.e.,* 120 days after December 31, 2013); and users may continue to use existing stocks of such products for resurfacing/replanting turf and sod on golf courses and athletic/recreational fields until those existing stocks are exhausted, provided that no later than August 31, 2013, each registrant has submitted for each of the registrant's products labeled for the golf course and athletic/recreational field uses, an application for amended registration to revise the approved labeling for those products to delete any language allowing use of the product for any of those uses. For any product that does not meet this condition, EPA may issue an amended order that prohibits sale and distribution and use of existing stocks as of the effective date of cancellation.

4. Existing stocks of methyl bromide products that include the non-CUE/QPS use on caneberry or tobacco seedling tray uses may be sold and distributed for 120 days after the effective date of cancellation (*i.e.,* 120 days after December 31, 2014); and users may continue to use existing stocks of such products on the caneberry and tobacco seedling tray uses until those existing stocks are exhausted, provided that no later than August 31, 2014, each registrant has submitted for each of the registrant's products labeled for the caneberry or tobacco seedling tray uses, an application for amended registration to revise the approved labeling for those products to delete any language allowing use of the product for any of those uses. For any product that does not meet this condition, EPA may issue an amended order that prohibits sale and distribution and use of existing stocks as of the effective date of cancellation.

B. For the Product Listed in Table 1B in Unit II

All sale or distribution by the registrant of existing stocks is prohibited after publication of the cancellation order, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product.

Existing stocks may be sold and distributed by persons other than the registrant for 6 months from the date of the cancellation order.

Existing stocks may be used until those stocks are exhausted, provided that such use complies with the EPA-approved label and labeling of the product.

List of Subjects

Environmental protection, Pesticides and pests.

Environmental Impacts Statements; Notice of Availability

Responsible Agency: Office of Federal Activities, General Information (202) 564–1399 or *http://www.epa.gov/compliance/nepa/*.

Weekly receipt of Environmental Impact Statements

Filed 05/09/2011 through 05/13/2011.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: *http://www.epa.gov/compliance/nepa/eisdata.html*. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.

EXPORT–IMPORT BANK OF THE U.S.

[Public Notice 2011–0035]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the U.S.

ACTION: Submission for OMB Review and Comments Request.

Form Title: Broker Registration Form, EIB 92–79.

SUMMARY: The Export-Import Bank of the United States (Ex-Im Bank), as a part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995. Our customers will be able to submit this form on paper or electronically.

This application is used by insurance brokers to register with Export Import Bank. The application provides Export Import Bank staff with the information necessary to make a determination of the eligibility of the broker to receive commission payments under Export
